ST. JOSEPH'S COLLEGE

PRESIDENT'S REPORT

and

HONOR ROLL

of

DONORS

July 1, 1970 – June 30, 1971

A FRUITFUL EXPERIENCE

CONTENTS

President's Message / 1

Financial Data / 6 & 7

St. Joseph's College Associates / 8

Sigma Circle / 9 & 10

Alumnae Fund Donors / 12 to 22

Business Matching Alumnae Gifts / 24

Alumnae Fund Statistics / 25

Parents' "500" Club / 26

Undergraduate Parent Donors / 27

Dillon Parent Donors / 28

Friends / 28

Business and Foundations / 28

Matching Gifts / 28

This report covers the fiscal year, beginning July 1, 1970 to June 30, 1971. The Honor Roll of Donors lists all contributions from all sources received during that period. We hope there are no errors or omissions, but if there are, please let us know.

Sister George Aquin

TO THE FRIENDS OF
ST. JOSEPH'S COLLEGE:

In an era when self knowledge and clearly defined goals are the hallmarks of growth, St. Joseph's College—an urban, coeducational, private liberal arts college in the Catholic tradition—has undertaken a collegial self-study to provide not only an evaluation of the present, but also a program for the future.

To know St. Joseph's College is to know the multi-faceted dimensions of a living institution:

Involvement in the urban evolution.

Commitment to academic development

Creative and cooperative spirit in common concerns

Need for continuing support by alumnae, business, foundations, friends and public sources.

The following report is intended to highlight the joint efforts of the constituencies of this college community which make St. Joseph's a living institution belonging not only to the present, but also to the future.

Archives
St. Joseph's College
Patchogue, N.Y. 11772

Involvement in the Urban Evolution

St. Joseph's College, located 25 minutes from midtown Manhattan, shares the cultural assets and excitement of the city—the theatre, museums and art galleries. And also, as with other urban colleges, it now shares the problems of urban crisis—inadequate housing, chaotic mass transit facilities, and the flight to the suburbs. It is this dual picture that creates the setting for St. Joseph's. Sensing the needs created by the urban crisis and following the College tradition of community involvement, students and faculty have actively committed themselves to the community as it exists today.

In 1970-71 members of the faculty served on the Community Planning Board for Fort Greene-Clinton Hill, on the Pratt Area Community Council and the Clergy Concerned About A Better Fort Greene. A number of students devote a portion of their free time to tutorial programs as well as summer programs for the children.

As evidence of the depth of its involvement in local community concerns, the Political Affairs Club of St. Joseph's presented a proposal to the S&H Foundation to provide an open forum for qualified speakers on the subject of urban planning for Clinton Hill-Fort Greene. The College's proposal was one of the 30 in the nation to receive S&H Foundation support.

To further assist in the educational needs of the community, St. Joseph's entered a cooperative arrangement with the newly opened Medgar Evers College of the City University, thus enabling their students to use the St. Joseph's College biology lab facilities in 1971-72 while Medgar Evers readies its own science labs.

Commitment to Academic Development:

Integrally involved in St. Joseph's philosophy is the relevance of its program and academic policies to the needs of its students and their times. The relevance is reflected in: a flexible admissions and transfer policy; an updating of core curriculum requirements; the Pass-Fail option; introduction of new courses; the incorporation of the Suffolk Extension in Brentwood; student achievement; faculty competence; superior library and laboratory facilities.

Admissions and Transfer Policies The enrollments for the years 1969 and 1970 have been 567 and 560 respectively. In 1970 St. Joseph's formally became a co-educational institution with the admission of eighteen male students. An interesting trend is anticipated by the fact that 21% of the applications for admission for 1971-72 were received from men. As of September 1971 the male portion of the student body has increased from 4% to 10% in '71.

The revision of the core curriculum described below has enabled the College to accept all credits included in an Associate Degree in the liberal arts from an accredited junior college. The revised policy has also enabled the College to incorporate students with a diversity of backgrounds.

In 1970 St. Joseph's accepted 16 transfer students from Notre Dame College in Staten Island when that institution closed. It also accepted 20 Sisters who transferred from Brentwood College and 30 students from twenty-six different undergraduate colleges.

It is the goal of the College, made operative through the Financial Aid Office, to offer the maximum financial assistance possible to capable students who would otherwise be unable to attend St. Joseph's. In 1970-71:

88 students received Grants-in-Aid totalling $19,248

26 students received Partial Scholarships totalling $5,200

13 students received Full Scholarships totalling $16,000

61 students took National Defense Student Loans totalling $27,700

149 students took New York Higher Education Assistance Loans totalling $151,960

66 students in Campus Employment earned $10,304

Beginning in 1971-72 the College will participate in the Educational Opportunity Grant Program. This will enable us to offer increased assistance to students from families of limited income.

The Blanche Knauth estate totalling over $235,000 finally cleared all legal hurdles and is now in the possession of St. Joseph's College. The will provided that it be used to endow financial aid for the education of women students. Thus the income on this endowment will be so directed.

Updating Curriculum In the fall of 1969, the academic departments made an intense self-study, resulting in a major revision of the core curriculum. The results were threefold: the reduction of the total number of credits for required courses from 70-76 to 56; core requirements within areas were substituted for specific course requirements; and finally the departments were grouped under Academic Divisions. The revised core requirements, which went into effect in the Fall, 1970, provide for individual interests, increased articulation of the first year program with high school programs, and flexibility in scheduling.

Pass/Fail The faculty responded to an Undergraduate Association petition for a Pass/Fail option and voted to encourage exploration and experimentation in curricular areas. Juniors and Seniors may take one course per semester on an index-free basis (i.e., the grade is not computed in the index). However, required courses may not be elected on this basis.

New Programs Seven new courses were introduced in 1970-71, including an interdisciplinary course in Black Studies. The State Education Department has approved programs leading to B.S. degree in biology, chemistry and mathematics.

Suffolk Extension Over the years, St. Joseph's alumnae, now numbering about 1,000 in the Nassau-Suffolk area, have expressed interest in the College's establishing a suburban branch. Such interest helped to spark the opening of St. Joseph's College, Suffolk Division in Brentwood, New York. The Extension Division is housed in a facility which formerly served as a formation college for the Sisters of St. Joseph.

In the Spring and Summer of 1971, the St. Joseph's faculty offered extension courses in philosophy, psychology and education as well as in the physical and social sciences. The College is now considering alternatives for the most effective utilization of the

Brentwood facility. These include an upper level division, a graduate program in education and specialized programs in child study and day care, geared to the needs of the community.

St. Joseph's will be participating in the innaugural stages of an inter-institutional cooperative effort to study the educational needs of eastern Long Island and to explore the possibility of cooperative ventures among the colleges in the area.

Graduates The Class of 1971, numbering 131, graduated on May 26th at the College's fifty-second annual commencement. Mr. William J. vanden Heuvel, Chairman of the New York City Board of Correction, delivered the Commencement Address. Fellowships and scholarships to such institutions as Buffalo University Law School, Columbia University Teachers College and Cornell University were awarded to many of the more than 60% of the graduates going on to further study.

Faculty Four members of the faculty recently have received the Ph.D. Now approximately 45% of the faculty hold the doctorate, a strong percentage, particularly for a college of this size. Additions to the faculty in the Psychology and Sociology Departments were necessitated by increased demands for courses in these areas.

After many years of service to the college, Mrs. Esther Raffalli, Professor of Spanish, retired, taking with her the gratitude and best wishes of all at the College.

Dillon Center The Dillon Child Study Center, a modern three story building added to the campus in 1968, served approximately 100 pre-school children in 1970-71 and provided a laboratory experience for both the College's Child Study majors and visiting students from other colleges, day care centers and nursing schools. These observers were drawn by the outstanding reputation of the Dillon staff in the area of early childhood education.

The Dillon Center's Director and staff have been actively involved in planning for St. Joseph's College Suffolk program and will be offering an orientation program for day care personnel at the invitation of the Suffolk County Social Services Department.

The parents of the pre-school children attending the Dillon Center expressed an interest in extending the pre-school to a nongraded primary. The request was presented to the Board of Trustees, examined by a committee of the Board but action had to be postponed until such time as the overall financial position of the College would allow it. Pre-school tuition for 1971-72 has been set at $450 per year.

Library The St. Joseph's College Library, housed in the excellent facilities of McEntegart Hall, now has a collection of 70,884 volumes and has averaged an annual increase of 3,072 volumes over the past five years. In 1970-71 the collection was increased by 2,874 volumes.

The superior quality of our Library both in the number and excellence of its holdings is due in large measure to the continuing interest and financial support of alumnae and friends. The Kellogg Foundation and the Sears-Roebuck Foundation also have contributed vital support.

A disturbing note, however, has been injected by the change in the approach of the Federal Government to the distribution of funds for Libraries under Title II. Over the past five years the College Library has received $25,000 in Title II grants. This aid was not forthcoming in 1971. Because of the reduction in funds voted by the Congress, the U.S. Office of Education substituted criteria for their distribution which favored "developing libraries" and libraries which were regarded as having deficient holdings. This criteria penalized St. Joseph's for its past efforts in building up its collection and did so at a time when the College budget was undergoing particular strain. It is hoped that this new criteria does not represent a policy position which will continue to support the burgeoning community colleges to the detriment of the older, more established private colleges.

A bibliography, *Black Experience,* was produced by representatives of our Library, working with other members of the Academic Libraries of Brooklyn. This joint list of the holdings of our libraries has been reviewed in lending library journals and has been in steady demand.

Creative and Cooperative Spirit in Common Concerns:

The Trustees through Committees and a seminar have reached out to faculty, students and alumnae to relate their efforts to the needs of the college community.

On April 24th the Trustees sponsored a seminar on "A Catholic College in the Contemporary World," to which they invited representatives of the faculty, students, alumnae and administration. Dr. Clarence Walton, President of Catholic University of America, delivered the keynote address. The seminar was a stimulating and informative first step in exploring a very complex issue.

Throughout the 1970-71 Academic year and continuing through the summer, faculty and students have been engaged in a review of the governance of the College. By the end of the Fall 1971 semester, specific proposals for the reorganization of faculty committees and the restructuring of the channels of communication within the College will be introduced on an experimental basis. Student government, always a vital part of the college organization, will probably undergo related restructuring to bring about improved means of communication.

On March 31, St. Joseph's College witnessed a unique and inspiring celebration commemorating the 100th anniversary of St. Joseph as Patron of the Universal Church. The program, under the chairmanship of Rev. Michael J. Cantley, Chairman of the Theology Department, included a concelbrated liturgy led by Bishop John McGann, with the Modern Dance Club interpreting the liturgical themes. Rev. Joseph Roff, Lecturer in Music and Resident Composer at the College, wrote an original composition to honor the occasion and it was performed by the Glee Club.

The College announced the appointment of two new administrators in September 1970. The Office of College Relations, which is responsible for communications with the College's publics and student recruitment, is now under the direction of Miss Rosalie Tutino, an alumna. The Development Office is under the leadership of Mr. George Diffley.

In July 1971, Sister Miriam Imelda Murphy joined the College as Assistant to the President for Suffolk.

Search for Continued Support:

In 1970, a capital debt of $511,885 remained from the building program which provided the campus with McEntegart Hall and the Dillon Center at a combined cost of $1,650,000.

Planned reduction of this debt has been a major goal of this administration. In the past two years, the indebtedness has been reduced by $49,212, all but $5,000 of which was paid in 1970-71. The debt reduction plan has been and will continue to be the product of a precise evaluation of the College's income, its carefully scrutinized expenditures and the requirements of the banks.

Over the past several years the college has faced annual operating deficits: $35,000 in 1968, $61,000 in 1969, and $40,340 in 1970. It has been able in 1970-71 to reverse that trend by completing the year with a modest operating income which is the result of increased income from tuition and a substantial increase in voluntary support from alumnae, friends, businesses and foundations.

Tuition has been increased twice since 1968, the increases necessitated by rapidly rising costs. If we were to hold the line on tuition in 1971-72, then we would have to hold the line on costs as well. Therefore, the Board of Trustees, with the full cooperation of the faculty, imposed a freeze on all salaries, instructional and non-instructional alike. The $1,400 a year tuition, the lowest in New York area for a private college, is, accordingly, being held at its 1970-71 level, thereby preserving our competitive position in the area of student recruitment.

A significant factor which has enabled the College to hold the cost of education at its present level is the contributed services of the religious and clerical faculty as well as the willingness of the lay faculty to accept a modest salary scale.

Development:

College income is derived from two sources: tuition and voluntary support. If a low tuition policy is to survive, then clearly voluntary support must account for a greater

percentage of our income. In 1971 such support represented only 10% of the income of St. Joseph's College, even though the $113,073 total was 40% higher than 1970's fund raising figure.

In order to continue its program of debt reduction and to meet rising costs in 1972, St. Joseph's has set a fund raising goal of $200,000. This overall goal can only be reached with generous support from alumnae, friends, business and foundations. They are being asked to share responsibility for the total goal as follows:

Alumnae	*$100,000*
Business & Foundations	*50,000*
Parents	*25,000*
Friends	*25,000*

Voluntary support is the key to the future of private colleges. This nation has always had a commitment to a dual system of higher education, but without voluntary support private colleges cannot survive. As Howard R. Bowen, chancellor of the Claremont University Center, has said, "The time has come for us to stop commiserating and apologizing and to go on the offensive." Private colleges are urgently needed and the means to their survival clearly exist.

This report has described only a small part of St. Joseph's College vision and its immediate objectives.

The College's dynamism depends on the shared awareness of its goals and objectives, tempered by an awareness of surrounding urban realities and financial stress. However, with belief in the validity of its mission and confident of the vital financial and moral support of its alumnae and benefactors, St. Joseph's College renews its dediciation "to be and not to seem" in the world of higher education in 1972.

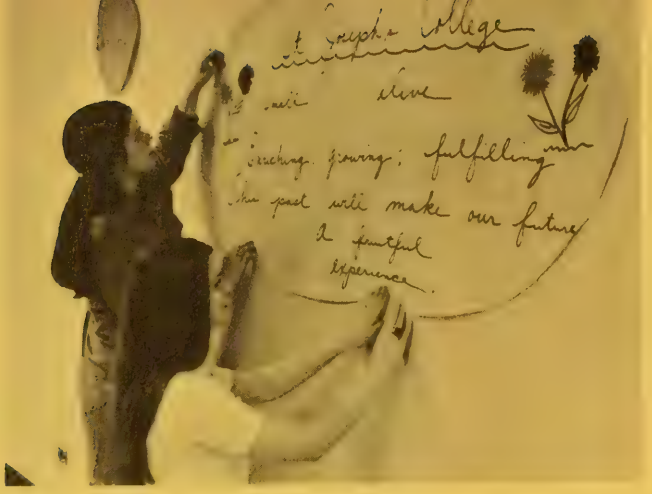

Sincerely

Sister George Agnes O'Connor, CSJ

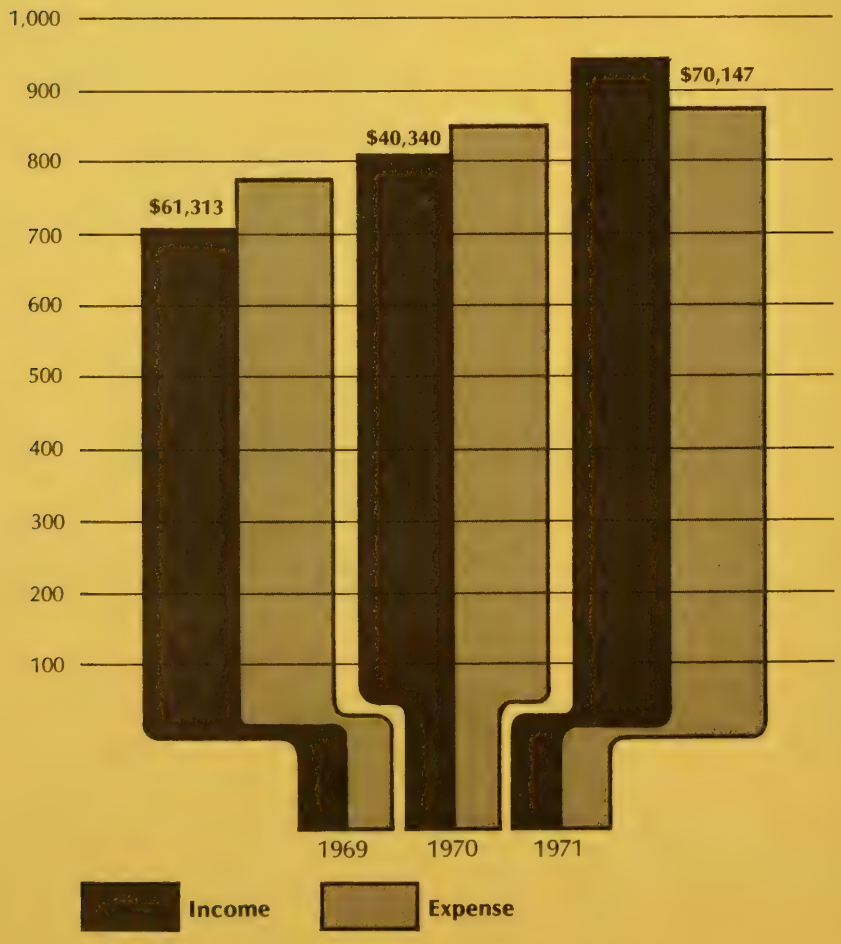

President

November 1, 1971

THREE YEAR OPERATING COMPARATIVE / Moving into the black .....

In thousands of dollars

ST. JOSEPH'S COLLEGE COMPARATIVE STATEMENT
OF INCOME AND EXPENSE
For the year ending June 30, 1971

Educational Income:	
General Tuition	$734,165.91
Preschool	33,808.98

THE ST. JOSEPH'S COLLEGE ASSOCIATES

The S.J.C. Associates was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1,000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

WHY SHOULD YOU REMEMBER SAINT JOSEPH'S COLLEGE IN YOUR WILL?

Because you will help Saint Joseph's to continue to offer quality education in the metropolitan area. Your gift will advance the educational diversity that only a dual system of private and public higher education can provide. Your bequest could help to...

provide scholarship aid to able undergraduates of restricted means

increase faculty salaries

extend library services

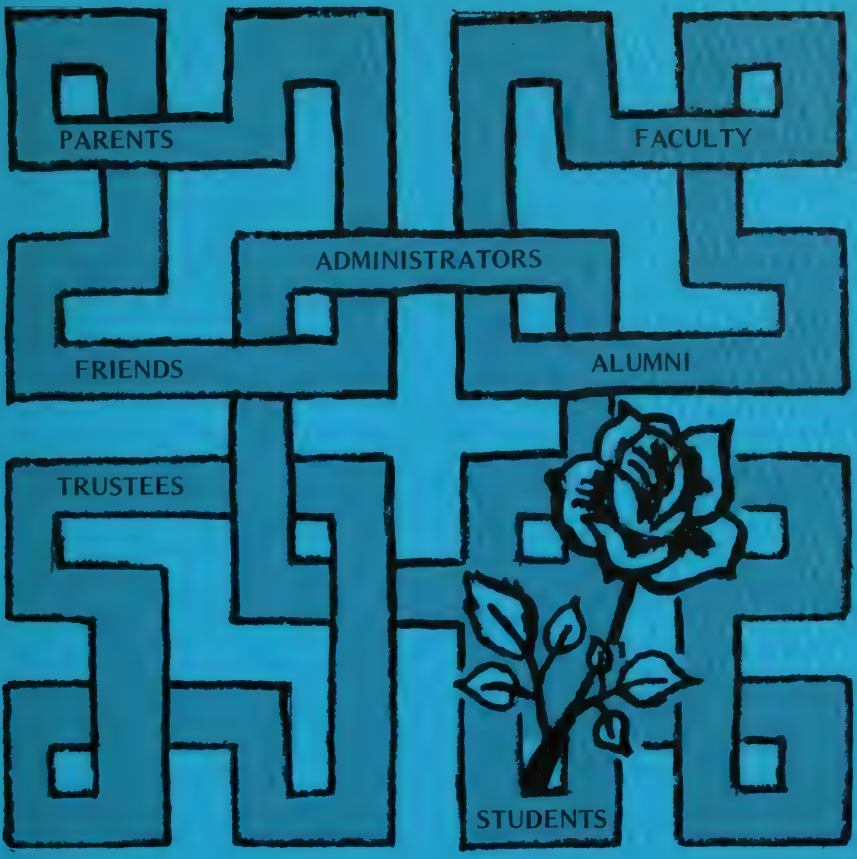

equip a science laboratory

finance a faculty research program

Our legal name is:
ST. JOSEPH'S COLLEGE, N.Y.

This report covers the fiscal year, beginning July 1, 1971 to June 30, 1972. The Honor Roll of Donors lists all contributions from all sources received during that period. We hope there are no errors or omissions, but if there are, please let us know.

TO THE FRIENDS OF
ST. JOSEPH'S COLLEGE:

Colleges, perhaps more than most other established institutions, engage in earnest on-going self-scrutiny and frequent restatement and clarification of their educational mission. This report will provide data on the most significant developments in the major areas of the college — academic affairs, student affairs, alumni, trustees, finances, development, and college relations. All of these must be viewed against the backdrop of college-wide developments. In retrospect, the year 1971-72 was marked by four broad movements, each of which generated a creative tension, and all of which have contributed to the renewed life of the College. It is with these developments that I would like to begin this report.

GOVERNANCE

The increasing pressures on private colleges for rapid decision-making, the importance of involving all members of the college community in contributing to the decision-making process, and the desire for regular communication with all members of the college community, initiated a review of our governance structure.

The original study was prompted by student interest in working more closely with faculty and administration. While the Student Senate weighed the advantages and disadvantages of the Undergraduate Association's traditional independence, the Faculty scrutinized the effectiveness of its committee system. Intensive study during the spring, summer, and fall of 1971 led both parties to the interesting conclusion that each group should continue to conduct its business separately, but should have a common meeting ground in committees. As a result, direct and continual communication between the two groups, and with the administration, takes place on the level of Standing Committees of the College, which replace both faculty and student committees. The proportion of faculty and students is determined by the nature of the individual committee.

Epitomizing the conviction of the importance of this kind of direct communication is the College Advisory Council, which meets each week to consider current operational problems and focus on issues of particular concern to each of the constituences of the College. The revised governance structure became operative in January 1972; for one year on an experimental basis. At the end of the first experimental year, each committee will make recommendations for modifications. In this way, the need for constant evaluation has been incorporated in the structure itself.

Although this reorganization may seem unspectacular to those not directly involved in carrying forward the day to day responsibilities of the College, the climate thus created and the opportunities for greater insight have proven to be of considerable value to those on campus.

FORMAL SELF-STUDY: The Middle States Study and the New York State Master Plan.

The strengths of the College, as well as its weaknesses, became evident in the college-wide self-study which absorbed much time during the past year; involved faculty, students, trustees, and alumni, as well as administrators; and created throughout the College an awareness that all of us, though each to a different degree, are responsible for the nature and growth of the College.

In deciding upon a problem-oriented self-study for Middle States, the administration urged realism, honesty, and courage in confronting our problems. The Middle States team may not agree with all of our conclusions, but they will recognize that we are well aware of our present situation and problems – declining enrollment, present and possible relationship of the College to Clinton Hill-Fort Greene, our liberal arts curriculum in a career-oriented decade, and the development of the Upper Division College in Brentwood. It remains for the College to assess the proposed solutions and order its priorities in the light of the contribution which we believe we can make to higher education in Brooklyn and Long Island.

As part of the self-study, from February 4-18, 1972, upperclassmen were asked to take the standardized College and University Environment Scale (CUES); 130 responded. The purpose was to assist in defining the atmosphere or intellectual-social-cultural climate as students see it. The overall picture from CUES portrays St. Joseph's as a liberal arts college (as against a teacher preparation college, for instance); with a strong sense of community; an environment characterized by courtesy, consideration and thoughtfulness, high campus morale, good teaching, and good relationships between students and faculty.

During the same period, faculty and administrators were asked to take the standardized Institutional Functioning Inventory (IFI). The results indicated that St. Joseph's is far above average on the scales of democratic governance and concern for undergraduate learning, and close to or slightly above average on freedom and concern for the improvement of society.

Simultaneously with the Middle States study, the administration was called upon to file with New York State a Master Plan for the next ten years. The administrators were directly helped by the reports which flowed in from the six Middle States committees. Guided by this long term analysis of the College, the administration and the Faculty Chairman of the Middle States Self-Study drafted a statement of mission, supported by specific courses of action.

As a result of these joint undertakings, we are now convinced that the College can truly face its future with promise – a promise rooted in a dedicated college community – one competent and prepared to make necessary changes and one resolute to be a part of the future as well as proud of its past.

INTER-INSTITUTIONAL COOPERATION

The most innovative and significant thrust in the College's development in 1971-72 was the creation of the coordinate campus with C. W. Post College of the Long Island University in Brentwood, New York.

In January 1971, St. Joseph's opened an extension division in the former Brentwood College building and began an exploration of the advisability of establishing an upper division college for transfer juniors and seniors. When C. W. Post expressed interest in using the facility, the administration intensified its study of the situation, and through concentrated efforts, developed the proposal for a coordinate campus.

The Regents, in approving the proposal forwarded to them, hailed the concept as the first of its kind in New York State, and one which exemplifies the present emphasis on cooperation. In essence, Saint Joseph's will provide a baccalaureate program for juniors and seniors. C. W. Post will provide graduate courses in education and criminal justice. Through coordination of programs, interested students will be prepared to move directly into graduate programs at Post and to complete their Master's Degree in minimum time. St. Joseph's and Post retain their separate identities and will confer their respective degrees, but they share the facilities, and together, benefit from a library of 60,000 volumes. While many details continue to be negotiated, the basic concept has proven viable. We had set as our goal for September 1972 a student body of 80 full time equivalents. Our register indicates that we now have 53 full time students in the day session; 80 part time students in the day and evening sessions; for a full time equivalent of 90 students. We hope to double that number in September 1973.

During the year, negotiations were in progress to provide opportunities for enriching involvement with other colleges. The most productive proposals culminated in coopera-

tive endeavors with Pratt Institute and Medgar Evers College.

Under the auspices of the Brooklyn Institutional Council, a University Year of Action program was projected. St. Joseph's and Pratt Institute designed an innovative program to provide academic credit for supervised service and college-conducted seminars related to urban problems. Unfortunately, however, the program failed to receive congressional approval for funding. Though disappointed by this decision, St. Joseph's is far better prepared at this time to participate in programs of this nature in the future.

Medgar Evers, a newly instituted college of the City University of New York, does not have adequate space and materials for its science program. It sought program facilities at St. Joseph's and an agreement was reached in which the students of Medgar Evers use the Biology laboratory at Saint Joseph's. This arrangement illustrates the willingness of this private college to accommodate to the needs of the public sector.

On both the Brooklyn and Suffolk campuses, then, the thrust for the future reflects a philosophy of cooperation rather than competition. In practical ways, St. Joseph's has responded to the Regents Advisory Council priority for corporate endeavor that strengthens educational opportunities rather than the duplication of effort.

In the emerging area of post-secondary education, our traditional program of Continuing Education proved to be an area of concern, with only 88 students in Brooklyn and 37 in Suffolk. One interesting development reflects the community spirit which sustains much of our growth. Through the alertness and concern of one of the students and one of the faculty, and through the innovative efforts of several other faculty members, a special program of guided independent study was provided for a group of 35 teachers from a local vocational high school who needed courses in math and science to complete certification requirements. This kind of program merits continued attention and development.

In response to a direct request from the Department of Social Services in Suffolk, the Director of the Dillon Child Study Center and members of the staff provided on-site training for para-professional staff members at a day care center in Huntington. In addition, they provided regular course work at the center for members of the day care staff. This project was special. Ordinarily, the Dillon Center hosts visitors from education classes in the community colleges once a week, and provides special observation time for nursing school classes.

In these ways, the College has identified with the Regents philosophy of providing opportunities for mature personal choice. However, this remains an area for further development and response to changing needs.

CURRICULUM REVISION

The Trustees, vested with responsibility both for the nature and direction of the College and for its fiscal solvency, have continued to study the implications of state aid for the College. In the Spring of 1972, a Trustee Committee was formed to bring specific proposals to the Trustees. With faculty and administration membership in addition to the Trustees, the Committee explored both the requirements and the consequences for St. Joseph's.

Once all of the issues had been clearly defined, the Trustees met with the full faculty to invite discussion, reaction, suggestions. At the end of this meeting with the Trustees, the faculty gave a written expression of opinion, favoring reapplication for state aid. Within the next few weeks, the Trustees voted to reapply, and charged the faculty with the responsibility for making the necessary curricular changes.

In preparation for this step, the faculty voted to hold a two day workshop focusing on the philosophy of a Catholic college in the 70's and curriculum development. Small group discussion of specific readings and general reaction sessions provided the opportunity for analysis and synthesis. The Middle States committee on philosophy and objectives submitted a preliminary draft of its position paper as a catalyst for further discussion. The direction which emerged from this seminar was concretized the following month in the faculty vote for curricular revision.

The revision of the core curriculum was in keeping with the general trend over the last few years to allow for easier coordination with the sophisticated and individualized programs of study in the high schools, greater flexibility in scheduling, and more opportunity for exploration and personal choice on the part of students. The final revision affected only the Humanities, in which students now choose ten courses from seven of the following areas: Art, English Literature, Classical Studies, Dance, Modern Languages, Music, Philosophy, Religious Studies, and Speech. In the Social and Behavioral Sciences, they continue to take one course in Western History and two from the remaining disciplines; and in Math-Science, they continue to take one math, one science, and a third course from either area.

The innovations reflect the creativity of faculty in adapting to current modes. The History and English Departments developed an inter-disciplinary course on British culture, in which faculty planned a week's trip to England during the January intersession. Twelve hours of classroom preparation for English and History majors preceded the trip. The itinerary had been carefully planned to give the students first hand experience of England from Stonehenge to Sleuth. Two seminar meetings and a short paper completed the course, for which the students received two academic credits. The trip was so popular that another is planned for this year.

Interdepartmental cooperation in Math, Chemistry, and Social Sciences resulted in a $3,500 grant from the Government under Title VI of the Higher Education Act. The equipment for the project which will utilize off-line and on-line computer terminals for instructional purposes will cost $7,000. The Title VI Grant provides half of that total and is the first such grant received by St. Joseph's. The equipment will enable us to extend computer services to virtually every area of the College's curriculum. In applying for the grant, the cross-disciplinary and interdisciplinary uses of the computer terminals were studied as was the need for faculty initiation into the instructional use of the terminals as it affects the various disciplines. The project will be operational during the Spring 1973 semester. We would welcome matching gifts to complete the funding.

The activities generated by these four movements produced a profound effect on college life. Resultant changes will govern the future of St. Joseph's. These four areas, however, do not reflect the entire picture of the college in 1971-72. Many other important developments need to be mentioned:

Students

Dedicated to the education and development of the whole person, St. Joseph's College emphasizes not only the acquisition of knowledge but also the development of an attitude of openness and sensitivity to each other, and to the community beyond the college. It is from this attitude and the value placed on mature self-expression that the student affairs of the college flow.

For the year 1971-72, statistics indicate a decrease of 15% in total applications processed as compared with 1971. However, it is to be noted that of those applying an increase of 9% actually enrolled for 1972. This pattern is consistent with national findings that students are slower in enrolling but more serious about their applications. Transfer students continue to enroll in sophomore and junior year at a steady rate of approximately 20 students per year. In the fall of 1971, there were 530 full time students registered. The admission of 34 men brought the total number of men to 50 for this second year of co-education.

Our current freshman enrollment of 114 reflects a vigorous recruitment effort which included a student phonathon, the organization of an Alumni Recruitment Committee, and an individualized school visiting program for high school seniors. The recruitment of full time students will continue to be the number one priority.

While recruitment and registration of students is a matter of concern, St. Joseph's continues to provide a personal approach to education. The teacher-student ratio is 1—8, with 61 faculty members: 43 full-time, 18 part-time. The Dillon Center Staff which works closely with the prospective student teachers in Child Study, consists of five group teachers and two graduate assistants. In a recent questionnaire, student response

indicated this teacher-student ratio as a significant factor in choosing St. Joseph's.

Motivated not only by a concern for internal affairs of the College, but also with an awareness of community involvement, the students have sponsored many activities this year which attempted to incorporate the neighboring community. The most significant venture was a seminar in March on "Urban Crisis In Clinton Hill and Fort Greene". The students of the Political Affairs Club, submitted a proposal to the S & H Foundation for which they received a $2,000 grant. The seminar, open to the public, explored the ramifications of the urban environment.

During November of this year, the Student Council sponsored Jose Greco and his Company. This cultural event was extended to the community. The neighborhood children were entertained by the Social Service Club with a Halloween Party and the Chapel Players who performed the Children's Theatre.

Thus, the students, while seeking intellectual discipline, enter into a spirit that envelops the whole person and his responsibility to himself and his society.

The 1972 commencement was marked by several unique features. The College awarded its degree to the first matriculated man to complete the course of study. The Bachelor of Science degree was also awarded for the first time in Biology, Chemistry, and Mathematics. Two former faculty members, Dr. Mary J. Huschle and Mrs. Esther Raffalli were awarded the title of Professor Emeritus in recognition of their lasting contribution to generations of graduates from the college. Honors at graduation included scholarships and assistantships in Mathematics, Child Study, Biology, and Chemistry to Fordham, Wisconsin, St. John's, North Carolina State University, and Providence College; and a Dillon Center Graduate Assistantship in Child Study. One member of the class of 1973 received a summer National Science Foundation undergraduate research participation grant for work in Chemistry at Hunter College.

Alumni

While enthusiastically supporting the Annual Luncheon, Chapter meetings and Alumni Leaders Workshop, the Executive Board voted to study and actively work in student recruitment. Anna Sullivan '40 has volunteered as the first Alumni coordinator for recruitment and will seek help from chapter leaders at the September meeting.

The Executive Board has set the goal of stimulating greater involvement in all its work by chapters already founded, not only in Kings, Queens, Staten Island, Nassau, Suffolk, Westchester, Connecticut, north and south Jersey and Washington, D.C.

Closer proximity to the College and a larger number of members accounted in part for the greater activity of the Kings and Queens Chapters. Able leadership and enthusiasm marked the 1971-72 activities of the Queens Chapter. Winifred Reilly Gaffney '42, Chairman, assisted by Chairmen of individual events, directed the Queens alumni through a February luncheon, a champagne party, a silent auction, and achieved support of Alumni Fund.

Among the activities of the Kings Chapter, which is chaired by Anne M. Moore '53, was support of the Jose Greco Dance Recital. This Chapter also organized an Alumni Day of Recollection and an Alumni Fund theatre party to "Vivat, Vivat, Regina".

An Alumni committee for the development of the Long Island Campus gave valuable support in the practical aspects of founding a suburban campus fifty miles from home. The College will continue to call upon Nassau and Suffolk Alumni in the crucial years ahead.

Alumni were also invited to participate actively in the College's Self-Study for Middle States. Suzanne Trinneer Drumm '59, Chairman, was assisted by her committee in drafting the Questionnaire sent to 525 alumni whose names were randomly drawn from the addressograph files of the classes since 1950. The response to the questionnaire was most informative as well as encouraging. Details will be published at a later date.

A highlight of the year occurred when 37 Alumni assisted by 34 undergraduates and several friends undertook the annual Alumni

Fund Phonathon appeal. Sparking their enthusiasm was Edgar Debany, trustee and husband of Marie Cavagnaro Debany '38 who volunteered to join the callers. Phonathon bore fruit not only in the $20,000 pledged but in the warmth of renewed contacts with out-of-town alumni.

Alumni Fund '72, backbone of the annual fund and principal resource of the College apart from tuition, reached a record with contributions of $68,168. This amount includes all revenue generated from alumni sources, that is, gifts matched by business, gifts to scholarships, and interest on the fund account. There was a slight decrease in percent of alumni contributing to the Fund (43%), as against (44%) last year.

Trustees

The Board of Trustees is an integral part of the St. Joseph's College community. Each trustee has exhibited a concern and is an active agent for the direction of the college's growth. Three new members were elected in the past year: Mr. William Flynn, Mrs. Eileen Graziani and Mr. Philip Sokol.

William Flynn, a former executive with the Columbia Broadcasting System, was elected Treasurer of the Board. Eileen Moloney Graziani '59, former President of the Alumni Association, is the youngest alumna elected to the board. Philip Sokol, active in ecumenical affairs in the Brooklyn Diocese and affiliated with the Board of Jewish Philanthropies, assisted the trustees as legal advisor on state aid during the past year.

Mr. William J. Clancy, who has served as Treasurer and Chairman of the Finance Committee since 1969, requested the Board to relieve him of this office. During his tenure and under his exacting supervision, the College reversed its financial posture, moving from a deficit of $30,000 in 1969 to an operating income of $73,000 in 1971. The Board, cognizant of his investment acumen, requested Mr. Clancy to continue to manage the College's investment portfolio and named him Financial Advisor for investment. Mary St. John Murphy, Alumna and Trustee for 25 years, was elected first Trustee Emeritus in recognition of her long and effective service to the College.

The year 1971-72 has been a time of soul searching for the Board, as for the College, and the fruit of this honest inquiry continues to be genuine dedication and involvement which has characterized the Trustees for many years.

Finances

For the second consecutive year, the College succeeded in balancing expenses against income. The $64,000 surplus was due to a number of factors — a stable enrollment, careful management by faculty as well as administration, and the absence of unusual plant expenses. The program of debt reduction moved ahead with payments of $30,000. Debt service on the remaining $433,000 is still substantial and every effort is being made to reduce these obligations further.

Of the total income of $1.3 million, only 60% was from tuition and fees. The national norm for colleges similar to St. Joseph's is 70-72%. Of the remaining 40%, gifts to St. Joseph's constituted 10% of total income, again, the national norm puts private gifts at 5.5%. Perhaps the most significant financial lever at the College is the factor called contributed services; i.e., the difference between the religious stipend and maintenance costs and that which lay faculty members with equivalent academic credentials, experience and responsibility would be paid during the current year. These services, amounting to $378,000 or about 28% of total income, was much greater than the 5% average reported by the National Catholic Education Association.

The income areas in which St. Joseph's College has been the weakest — sponsored research and government support — are the key to the survival of most private colleges. As a liberal arts college, the likelihood of attracting sponsored research is poor. The College continues to explore the avenues to state aid.

The absence of such assistance at the state level is becoming more critical to the future of the College. The College's expenses per student during 1971-72 were $2,181. The tuition of $1,400 left the College with a balance of $781 per student, to be provided by other revenues. The tuition charges which have been held at $1,400 for three years must be increased to $1,600 in the fall of

1973. But, tuition income will still be substantially below actual cost per student.

Logic might have suggested a more realistic increase in tuition but a knowledge of the income level of our present undergraduates, many of whom work to defray tuition or require financial assistance through scholarships or loans, denotes otherwise.

From scholarship and endowment funds, the College distributed $47,000 for 133 students in full or partial scholarships. In addition to these College funds, New York State Regents scholarships and Scholar Incentive Awards contributed $131,000 toward tuition. An additional sum of about $170,000 was borrowed by students from state and federally guaranteed loan programs.

Development and Public Relations

The expansionist era in higher education, which reached a climax in the late 1960's has leveled off. If the demographers are correct, the nation's population growth is leveling off and the impact will be felt by colleges at the end of the decade.

Recruitment of new students for both the freshman class in Brooklyn and the junior level in Brentwood remains a clear priority for the coming year. Alumni have been asked to organize volunteers to cooperate with the College Relations Office. An assistant for recruitment, Mr. Michael Murray, will work to broaden the base of contacts and assist with late afternoon and evening interviews.

The annual fund remains the greatest single cash resource upon which the College has relied for fiscal viability. Support for St. Joseph's and its various programs has shown a marked increase over the past two years, going from $77,000 in 1970 to $134,000 in 1972. This success story has been reflected in the increased giving by alumni, parents, friends, and especially business. To all of these supporters of St. Joseph's College whose names are enrolled in this book, we express our most profound gratitude. They have sustained us in a time of great labors and have emboldened us to press forward onto new and challenging paths.

In 1971, we broke the deficit pattern of several years standing. In 1972 we strengthened this new pattern of fiscal integrity. In 1973, we look forward to a year of great financial burdens but also of great promise.

The promise that we see in our coordinate campus on Long Island, in our concerned and innovative faculty, in our small but enthusiastic student body, in our library resources, and in our Child Study Center — that promise will bear an even higher price tag in 1973.

The expenses for the Coordinate Campus in Brentwood will be $112,000. Faculty salaries were raised 5½% and the related factors incur an additional $15,000 expense for the coming year. Sisters' stipends and benefits (hospitalization, pension, etc.) involves a $35,000 increase. Plant expense will probably follow the city-wide 5% increase, or $10,000. All other increases including special programs will be in the vicinity of $20,000 – $25,000. These are only the known additional expenses, but we know our $200,000 goal is a realistic one. Only if we are successful in this effort, can we meet the challenges we have set for ourselves in charting our course for the rest of the seventies.

Although the development program over the past two years has involved many people, a sharing of ideas and a mutual energizing of effort, no small part of the effectiveness of this cooperative effort has been due to George Diffley, Director of Development, who resigned in July. With deep gratitude we wish him great success in his new work.

The life of a college is dependent upon the interrelationship of its varied constituences. To succeed each must perform its vital function. St. Joseph's has indeed been fortunate in the response of its administrators, students, faculty, trustees, alumni, parents, and friends. Further effort and cooperation will ensure the continued advancement of the College in the seventies.

Sincerely,

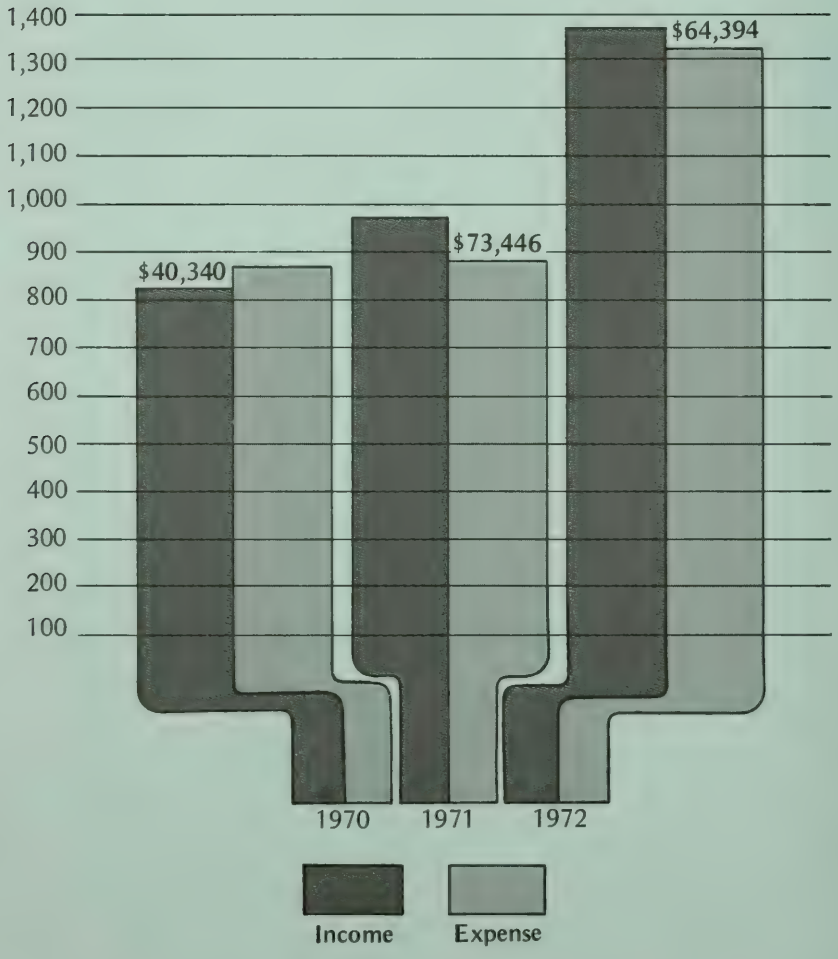

Sister George Aquin O'Connor, C.S.J.

Sister George Aquin O'Connor
President

THREE YEAR OPERATING COMPARATIVE

In thousands of dollars

ST. JOSEPH'S COLLEGE
STATEMENT OF INCOME AND EXPENSE
For the year ended June 30, 1972

Educational Income:		
General Tuition	$728,470.45	
Preschool	39,805.00	
All Other Programs and Fees	64,110.30

THE ST. JOSEPH'S COLLEGE ASSOCIATES

The S.J.C. Associates was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1,000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

WHY SHOULD YOU REMEMBER SAINT JOSEPH'S COLLEGE IN YOUR WILL?

Because you will help Saint Joseph's to continue to offer quality education in the metropolitan area. Your gift will advance the educational diversity that only a dual system of private and public higher education can provide. Your bequest could help to...

provide scholarship aid to able undergraduates of restricted means

increase faculty salaries

extend library services

equip a science laboratory

finance a faculty research program

Our legal name is:
ST. JOSEPH'S COLLEGE, N.Y.

This report covers the fiscal year, beginning July, 1972 to June 30, 1973. The Honor Roll of Donors lists all contributions from all sources received during that period. We hope there are no errors or omissions, but if there are, please let us know.

TO THE FRIENDS OF ST. JOSEPH'S COLLEGE:

For all of us who shared in the development of St. Joseph's College during 1972-73 the experience was stimulating, at times provocative. In all candor it was a year of notable achievements, some of which we will try to highlight in this brief review.

In previous Reports we spoke of the anticipated visitation by the Middle States Evaluation Team and our vigorous preparation for that college-wide study. The Team, headed by Father Victor R. Yanitelli, S.J., President of St. Peter's College, was on campus from February 25-28, 1973. Every facet of our collegial program at both the Brooklyn and Brentwood facilities was analyzed and evaluated. The thoroughness, professionalism and great sensitivity exhibited by each of the ten evaluators was and has continued to be a source of enlightenment and encouragement. The Report issued by the Team in March, 1973 which led to our continued reaffirmation of accrediation is more than a report. It is a biography . . . a story of the life of a college which exists because so many other lives are deeply intertwined in its roots, its mission and its spirit. All of us at St. Joseph's — trustees, administrators, faculty, staff, students and alumni should be proud of the chapters we have helped one another to write.

I am happy to share some of the highlights of the report with you.

1. The Team was impressed by the clarity and tightness of the institution's Self-Study. It was remarkably free of rhetoric, "fat", and obfuscation.

   The members of the Team were aware that, following the advice of the Middle States Office, the Self-Study was problem-oriented, and upon the reading of it, the members of the Team were convinced that the institution has a clear, hard-headed awareness of its own problems.

2. Not only is the faculty very well qualified as indicated by its high proportion of Ph.D.'s but its loyalty, dedication and devotion to the task of teaching also manifests a common purpose and corporate concern for the mission and destiny of the College.

3. The student body demonstrates a spirit and an enthusiasm for St. Joseph's College, which no amount of money could ever buy. The students seem to be learning, having fun, and loving each other and the College all at once.

   The students also seem to carry this enthusiasm over as alumni and alumnae, which is a precious asset to the institution.

4. The administrative leadership is both intelligent and energetic.

5. The interest and involvement of the Board of Trustees is gratifying to see.

6. And last but not by any means least, the members of the College staff all seem to feel like this is their College, not just a job.

Of course, the above is merely a smallest fraction of the total volume of the Report, however, it touches a broad cross-section of the College's human parts and represents the Team's honest impression of each. In discussing areas of concern to all friends of the College in this year's review, I will occasionally refer to the Report, since it is the most objective criterion we can utilize to estimate our overall health as an educational institution.

While the Middle States Evaluation was a vital part of the 1972-73 "campaign", another kind of evaluation of the College took place in this year which is undoubtedly a milestone in its history and an incalculable aid in continuing the traditional level of

personalized education and dedicated service which students, alumni and the community-at-large have come to expect from St. Joseph's College.

A review of the College by the New York State Education Department found St. Joseph's eligible for funds under the so called "Bundy Law" (New York State Education Law 129). The significance of this determination is twofold. The additional funding ($35,520 for 1972-73; $110,000 anticiapted for 1973-74) is a boon to a small private college as it navigates through the unsettled waters of inflation, population shifts, increasing commitments to financial aid for students and uncertain support from business and industry as they adjust their priorities and fiscal responsibilites. However, the most gratifying aspect is the recognition of the independence and self-determination of St. Joseph's which has always been part of its heritage. Explicit in its charter, dated 1916, is the spirit and the letter of such independence. Moreover, through the deeds of the property, the earliest catalogues and minutes of trustee's meetings, the legal independence of Saint Joseph's College is clearly delineated. This statement is not intended to deny in any way the tremendous contribution of the Sisters of Saint Joseph from 1916 to the present, but rather gratefully to affirm the intention of the Congregation to contribute to the establishment of an independent institution of higher learning for "qualified students".

Curriculum development which proceded State approval for Bundy Aid was the result of long and careful study. It was a thoughtful approach to new educational horizons which would give students an opportunity to seek broader avenues of research and experience in the liberal arts. The introduction of new courses, addition of faculty and wider use of visiting lecturers and guest speakers is in keeping with St. Joseph's commitment to the personal growth and development of its students and the professional and intellectual stimulation of its faculty. The academic strength of the College has been and always will be its willingness to respond to the curricular needs of its students within the liberal arts tradition.

Most institutions of higher education find it difficult, if not impossible, to accommodate flexibility and adapability within their often cumbersome structures. On the other hand, St. Joseph's size, highly personal student-faculty-administration associations, and close contact with alumni and friends in virtually every field of endeavor, allow us the advantage of reacting quickly to changes in educational, career and governmental trends. A well-qualified faculty, with deep and continually growing insights into their particular areas of study, have the opportunity and ability to create, revise, and institute curricula suited to the needs of each class and in some instances, each student. Those of you who have long association with St. Joseph's know this is nothing new in the life of the College.

In keeping with this desire to serve students in their personal and professional pursuits, St. Joseph's College hopes to launch a full and comprehensive Continuing Education program on both the Brooklyn and Brentwood Campuses as well as at off-campus centers throughout the Metropolitan Area. It has become increasingly clear that mature individuals who have reached an impasse in their career aspirations because of the lack of a college degree, or who have the need or the will to develop talents and interests must be served close to their homes at a reasonable tuition rate. Although our past efforts in this area have been modest, extensive research has convinced us that an expanded Continuing Education program is viable and may be a highly satisfying and fiscally sound venture. You will be kept informed through the College's publications, newsletters, press releases, and personal correspondence. We are confident that our efforts will be fruitful and a major topic of review in subsequent President's Reports.

Enrollment and the recruitment of freshmen continue to be a primary concern. The number of incoming freshmen has increased slightly this past year due to the total involvement of the college community. In cooperation with the College Relations Office, students, faculty, and alumni have been utilized at various levels of contact with high school students, guidance counselors, and parents. One effort which may be of interest to you is the Special Program established at Bishop Kearney High School. College courses have been and will be given in the coming year at Kearney by two of our

regular faculty members. Seniors may register for one or two courses per term (three or six credits) at a reduced rate of tuition which is partially subsidized by the high school. Upon successful completion of the course(s), students may transfer these credits to St. Joseph's or any other college they may wish to attend after graduation.

This unique educational experience benefits all. Students have an opportunity to test their abilities at the college level and to determine an area of interest they may ultimately seek as a major field. They will begin college enriched by experience, credit accumulation and tuition savings. Bishop Kearney High School is an innovative leader in this academic area. And St. Joseph's College may reap dividends in terms of increased enrollment as more students are exposed to the fine faculty and programs it has to offer.

Since the inception of this cooperative experiment, other high schools have expressed a desire to join in something of a similar nature. It is possible, therefore, that this type program may be developed in other high schools.

A variety of recruitment-oriented activities launched last year, prompted the Middle States Team to note:

> "The Evaluation Team has perceived with no little admiration the numerous projects now under way as an attack on the enrollment problem. Continuing Education, bringing courses to the high schools, the involvement of students, alumni and alumnae, all indicate that St. Joseph's is not afraid to experiment and to innovate."

An integral part of the attempt to attract new students is the financial aid program offered by the College. In most cases, the Financial Aid Officer attempts to set up a "package" for students seeking aid. The package will include an estimate of all monies which might be available to each student from state, federal and college sources. Whatever balance remains may be acquired through family contributions, work on or off campus, and/or student loans. The College's financial aid budget includes commitments for the coming year of $63,000 as against $47,000 in 1972-73.

The Development Program of the College continues to rely heavily on alumni, friends and faithful supporters from the business community. The 1972-73 Alumni Fund hit an all-time annual high of $66,000, plus interest and dividends. Forty-two percent participation by alumni is an indication of the unprecedented interest of our graduates in the future of the College. We are indeed fortunate to experience the good will and generosity of our alumni year after year in spite of the fact that they, too, must weather, on a personal level, the rigors of an inflationary national economy.

Special gratitutde is due Mr. Bradley Hemingway who, during his first year on the Board of Trustees, has given superb leadership to the Trustee Development Committee. His continued efforts to bring St. Joseph's to the attention of local businessmen will undoubtedly contribute to a successful campaign in 1973-74.

In the area of Student Services, the Brooklyn Campus has experienced some changes. With the increase in men students, a diocesan priest has been appointed as a part-time campus minister with a dual role. His liturgical functions are complemented by his availability as an informal counselor.

A new constitution was drawn up for the Undergraduate Association, and with the increasing number of foreign students joining our ranks (30), the Organization of Foreign Students was established to promote cordial relationships among themselves and their fellow students and to assist them in adapting to new and often strange surroundings and situations. Of course, as on most campuses across the country, greater emphasis is being placed on more open communication at all levels of the College's life. Student peer counseling and faculty counseling apparatus has been refined and expanded to encompass almost every counseling need.

The Board of Trustess elected its first lay Chairman, Mr. Edgar Debany who joined the Board in 1969. Mr. Joseph Belvedere was elected Vice-Chairman. He had served previously as Chairman of the Student -Trustee Committee. Mr. William J. Flynn continues as Treasurer, and Sister John Raymond McGann succeeds Sister Virginia Therese as Secretary.

These new members joined the Board this past year! Mr. Thomas Donovan, Executive Vice-President of Marine Midland Bank, Mr. Bradley Hemingway, President of the Metropolitan Savings Bank, and Mr. Martin J. Higgins. Mr. Higgins, a real estate consultant and developer, who had been the Vice President of The First Boston Corporation gave promise of real interest in sharing his talent with the College. We experienced shock and sorrow at his sudden death this summer.

Perhaps one of the most satisfying developments of 1972 was the opening of the St. Joseph's/C.W. Post Coordinate Campus in Brentwood, Long Island in September. This cooperative undertaking is the first of its kind in New York State and incorporates an undergraudte Upper Division College and Graduate Program. St. Joseph's College offers majors in Child Study and Human Relations with numerous complementary courses from other departments. These programs lead direclty into C.W. Post's Graduate Studies in Education and Criminal Justice. In some instances, undergraduate and graduate courses may be taken simultaneously to further reduce the student's total time on campus.

The Brentwood facility opened with a full time equivalent of 83 students . . . a heartening statistic when one considers the difficulties inherent in undertaking a venture of this scope and dimension. Numerous plans are on the drawing board to develop curriculum and special programs for the Nassau-Suffolk area. One important off-campus project has been proposed which would take St. Joseph's faculty into business offices and hospitals to give college courses to personnel who wish to upgrade their professional levels of competence or who desire personal enrichment. This service to the business community is merely one facet of the multi-educational operation we hope to launch in Brentwood . . . leisure-learning at home, on-campus studio art courses, day-care facilites for part-time students who have young children, broader preparation in special education. Our aspirations are ambitious but are supported in the Middle States Team's assessment of Brentwood:

> "The development at the Brentwood Campus is most successful . . . The area provides and will continue to provide for many years an expanding number of graduates from its local two-year institutions. Therefore, the Brentwood potential for growth, especially in upper division programs, is most promising. In fact, it has been said that with careful study and with careful planning the Brentwood enterprise cannot fail, at least not in the foreseeable future. The quality of offerings, the reasonableness of their scope, and the administrative services are all to be commended."

The Team's unmistakably encouraging outlook reinforces our determination to acquire the necessary support which, combined with diligent effort, will enable us to fulfill our roles as educators and good neighbors in Suffolk County.

Untiring effort and close cooperation on the part of our library staffs at the Brooklyn and Brentwood campuses have brought about a minor miracle in establishing strong, serviceable, and highly efficient library facilities at the Coordinate Campus in a minimum amount of time. Over 60,000 volumes, the joint holdings of St. Joseph's and C.W. Post, had to be catalogued and merged. New acquisitions will be coordinated by the two institutions to avoid duplication and strengthen the collection.

The holdings in the Brooklyn Campus Library, housed in McEntegart Hall, was increased during the year by more than 2,000 volumes. A substantial number of audio-visual aids were also added. Increased use of the Library's facilities will necessitate greater and more costly expansion in the next five years. It is hoped that friends of the College will assist us to achieve this goal.

Finally, Dr. Jerald C. Brauer, former Dean of the Chicago University Divinity School, visited the campus in May, 1973 as the representative of the State Education Department. After several group discussions, he warmly commended faculty and students on their understanding of the role of Religious Studies in the curriculum, and was favorably impressed by the library holdings.

It is on this note of growth and hope and expectation that I wish to close my report, and in what more fitting way than to quote the Middle States Team's concluding remarks:

"St. Joseph's College is very much alive. Its people are fully aware of its problems and are very much involved in facing up to them together. . ."

Sincerely,

Sister George Aquin O'Connor

Sister George Aquin O'Connor
President

ST. JOSEPH'S COLLEGE
STATEMENT OF REVENUE AND EXPENDITURES
FOR THE YEAR ENDED JUNE 30, 1973*

	1973	1972

THE ST. JOSEPH'S COLLEGE ASSOCIATES

The S.J.C. Associates was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1,000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

SAINT JOSEPH'S COLLEGE
ALUMNI FUND

September, 1973

Dear Alumni,

Alumni Fund '73 has drawn to a close. As in the past, your loyalty to St. Joseph's has once again revealed itself in your generosity to our Alma Mater.

This year 41.6% of the Alumni answered our appeal, contributing a total of $68,430.94. This heartwarming response to the call of St. Joseph's is indeed gratifying to all concerned. We know the sacrifices you have made to complete your pledges and are deeply grateful to you.

May God bless you always, in all ways!

Yours sincerely,

Dora C. Augus

WHY SHOULD YOU REMEMBER SAINT JOSEPH'S COLLEGE IN YOUR WILL?

Because you will help Saint Joseph's to continue to offer quality education in the metropolitan area. Your gift will advance the educational diversity that only a dual system of private and public higher education can provide. Your bequest could help to. . .

provide scholarship aid to able undergraduates of restricted means

increase faculty salaries

extend library services

equip a science laboratory

finance a faculty research program

Our legal name is:
ST. JOSEPH'S COLLEGE, N.Y.

If you would be interested in visiting the College, write to the Development Office or call 622-6203

This report covers the fiscal year, beginning July, 1973 to June 30, 1974. The Honor Roll of Donors lists all contributions from all sources received during that period. We hope there are no errors or omissions, but if there are, please let us know.

Dear Trustees, Alumni and Friends of St. Joseph's College,

Each year there is a unique challenge in reporting to you, our special benefactors. Although we keep you informed of activities and changes through *245,* the College newsletter, we welcome the opportunity to give perspective to various news items and developments within the College community.

Over the past year, greatly encouraged by the warm commendations of the Middle States evaluation team and our subsequent re-accreditation by both Middle States and the State Education Department, and financially strenghtened by the first full year of direct institutional aid from New York State (Bundy), we have directed our collective efforts to finding solutions to the pressing problems confronting St. Joseph's College and all liberal arts colleges of similar size.

ENROLLMENT TRENDS

In her 1973-1974 report, Sister Irene Veronica Westering, Director of Admissions (now Emeritus), emphasized two recent state-wide trends which have had an impact on both the admissions policy and the enrollment patterns at St. Joseph's College.

1. Open Admissions policy in the City University of New York has adversely affected enrollment in local private colleges and has led the traditionally selective four year colleges to move toward an open access policy not previously held.

2. The rapid growth of community colleges nationwide but, most particularly, in New York State has forced four year colleges to revise transfer policy and to develop programs which can articulate with a wide variety of career-oriented degree programs. This, at a time when the two year liberal arts programs (AA) are declining in appeal.

RESPONSE

We are sure that you are concerned about the impact of these two trends on St. Joseph's; therefore, we will set forth some steps which we have taken to meet these challenges.

1. Although we have not adopted an academic open admissions policy, we have provided individual guidance and specialized testing to help determine the readiness and ability of students to do college work. In this way, we are meeting individual needs realistically and fairly.

   For selected students, we have facilitated an early admission plan which allows high school juniors, with their secondary school approval, to move directly into the first year of college. We have also arranged for high school seniors from St. Angela Hall, St. Joseph's High School, Brooklyn, and the Academy of St. Joseph, Brentwood, to take individual courses on Campus during free hours. Similar arrangements are available to any academic high school whose recommended seniors wish to take individual courses at the College.

   Most significantly, we have inaugurated the SAY (Save a Year) Program at Bishop Kearney High School in Brooklyn. Thirty-one Kearney students have dual enrollment in high school and in college, and are completing the first year of college while still enjoying the benefits of their senior year in high school. One SAY student is president of the student body; two are on the school paper; and all are doing well academically in their college courses in Spanish or French, American History, Psychology, Philosophy, and Dramatic Workshop. In view of the current interest in greater coordination between high school and college, this close cooperation between a high school and a college which share the same educational philosophy is particularly noteworthy. The results, to date, have been most satisfying to all involved.

2. To provide one needed form of career education, we are offering an upper-division sequence leading to a B.S. in Recreation at the Coordinate Campus in Brentwood. This program, the first of its kind in Nassau and Suffolk, coordinates directly with community college AAS degree programs. Our emphasis on the humanities and social and behavioral sciences complements the skills orientation of the lower division course offerings. Nineteen full-time and seven part-time Recreation students are enrolled in September, 1974.

3. In Brooklyn we are planning to strengthen the Business sequence offered in the Social Science department. Courses in Management, Marketing, Finance, Accounting, Business Law and Personnel can be elected by interested students who are following a related liberal arts major. By electing this sequence, the student can prepare for a career in business or admission to graduate business programs.

4. All Departments have devised and coordinated career orientation programs.

5. In direct acknowledgment of the diversity of student needs and with special concern for adults interested in such career programs as small business management, health services, etc., we have introduced a B.S. in General Studies. This non-traditional degree program de-emphasizes specific requirements, allows for past learning and experience, and encourages the working adult by providing courses within certificate modules. For greater convenience, this program will be conducted at off-campus sites as well as at the Brooklyn and Brentwood facilities.

6. Finally, St. Joseph's Upper Division College at the Coordinate Campus in Brentwood, designed three years ago to meet needs of the community college graduates in the Nassau/Suffolk area, has graduated its first group of forty students. We are very proud of their accomplishments. Two Brentwood students graduated cum laude; two were elected to Kappa Gamma Pi; several received membership in Sigma Iota Chi. Two have received assistantships to C.W. Post Center of L.I.U. for graduate work in Guidance and Library Science respectively.

7. To bring these new programs, as well as our traditional liberal arts programs to public attention, we rely on a small but very active Admissions team. This group has succeeded in contacting a substantially greater number of public high schools, as well as the Catholic high schools which have provided an overwhelming majority of our students in the past. In addition, the team maintains systematic contact with the Community Colleges in the five boroughs, Nassau and Suffolk. Integral to our approach is the service rendered by the Financial Aid Office, which prepares detailed information for prospective students on various forms of assistance available through federal, state and college sources.

8. In support of this recruitment effort, the advertising budget for recruitment, despite college-wide constraints, has been increased substantially for both campuses. Moreover, a significant amount of radio air time has been purchased to allow us to reach a wider audience. "Education on the Line" (WRVR-FM), a program directed to professional educators, is sponsored in part by St. Joseph's College and has offered our administrators, faculty, and students an opportunity to participate in three programs to date. More are scheduled for the coming semester. This kind of publicity should help to make the College more widely known.

What is our current enrollment picture?—stable, with potential for some growth. Our total for both campuses is 565 FTE (the number of full time students combined with formula-adjusted part-time enrollees). It is important to note that the figure is a composite not only of full and part-time students but also that the matriculants are on two campuses. Despite all the efforts outlined above, enrollment in Brooklyn has declined to 405 full time students. It might be better to say that because of all of the foregoing efforts, Brooklyn enrollment is holding at 405 full time.

The Coordinate Campus continues to grow, from 51 full time in 1972 when it opened, to 121 full time and 113 part time (total 159 FTE) in 1974. From a statistical viewpoint, the Brentwood program is right on target; i.e., the estimated enrollment projected in our Master Plan for 1972 (long range planning is required by New York State law).

BALANCED BUDGET

Financially, through the generous support of our alumni and other benefactors, the contributed services of the Sisters and priests, and New York State aid, we have been able to maintain a balanced budget. We are thus able to provide a quality educational environment for students at a continuing low tuition rate.

GRANTS AND SCHOLARSHIP

As evidence of the academic quality of our programs, we are happy to highlight some of

the academic achievements of our students and faculty during the past year.

In 1974 eleven graduates received a total of thirteen scholarships or assistantships in the following fields:

Biology
City University, New York University and St. John's University

English
St. John's University

Food Sciences
University of Maryland

Guidance
C.W. Post Center of Long Island University

History
New York University
Lehman Social Science Fellowship to be taken at N.Y.U.

Library Science
C.W. Post Center of Long Island University

Psychology
Duquesne University

Spanish
University of Delaware

Theology
Catholic University of America and St. John's University

In addition, two undergraduates received summer grants in biochemistry to the University of North Carolina and Hunter College, C.U.N.Y., respectively.

One member of the Class of 1974 has *given* a "grant" to the Sioux Indians in the form of a year of volunteer service at the Red Cloud Indian School in South Dakota.

Faculty members received grants for summer study in Biology at Oak Ridge, Tennessee; in Chemistry at Catholic University and at Oak Ridge; in Spanish Language at Javeriana University in Bogota, Columbia (for a Sociology professor); and in Russian and Polish studies at Duke University in North Carolina for a member of the History Department.

In addition, one member of the Spanish Department continued doctoral work at the University of Madrid while another spent the summer in Puerto Rico.

During the year, one member of the Math Department had a grant to the University of Syracuse for a Chattauqua-type short course in Computers, and one faculty member had her first novel published (after a number of successful short stories).

The Library was awarded a basic grant of $5,000 for the fiscal year 1973-1974. This is the sixth grant for library materials from the federal government and reflects the intelligent planning and preparation of proposals by the chief Librarian and her staff.

In some sense, too, the College may be said to sponsor its own grants for cultural enrichment. In January 1975, members of the English and History Departments will conduct the fourth Field Trip to England. The faculty donate their time planning and serving as tour guides for 40 undergraduates. The College allows the students two credits on their spring programs without additional tuition charges for full time matriculated students. In June 1974, the Sociology department sponsored the second Field Trip to Puerto Rico with a faculty member organizing and conducting the trip; and with the College granting two credits on the fall program, without additional tuition charges. In both cases, faculty conduct an intensive 12-15 hour workshop in preparation for the trip, with two follow-up sessions and a paper. It is a stimulating experience for the students.

FACULTY AND TRUSTEES

While we recount our recent accomplishments and the thrust of our academic planning, we wish to make special note of colleagues who for many years have served the College most effectively and with great and sincere hearts. In June, 1974, Sister Marie Clotilde Falvey became Professor Emeritus of Chemistry, Sister John Baptist became Professor Emeritus of Speech, and Sister Irene Veronica became Director Emeritus of Admissions. They remain with us at the College serving no less enthusiastically on a part time schedule.

Changes in the Bylaws of the Board of Trustees adopted in 1969 limit the tenure of

trustees to two successive three year terms. This year the College witnessed the departure of eight valued and most dedicated members: Monsignors Diviney and Fitz-Gibbon; Sisters Joan de Lourdes and Margaret Dodman; and Joseph Belvedere, William Dwyer, Bernadette Garvey, and Margaret Kelly. It is impossible for the College properly to express gratitude to these men and women who have given unstintingly of their talents and time to the demanding tasks of trusteeship.

We are confident that their outstanding leadership will continue through the present Board members and in the promise provided by the newly elected trustees. We welcome Sisters Virginia Therese Callahan and Raymonda Dillon; Dr. Joseph Cammarosano, Mr. Hilton Rosen and Reverend Charles Swiger. You will be kept informed of the conscientious efforts of the trustees and faculty through the College newsletter and reports which are sent to you periodically.

A LOOK TO THE FUTURE

The healthy profile which we have sketched for you gives us reason to believe in the future of the College. The record indicates that college-wide and on every level, we have husbanded and invested the resources which you have made available to us in the past years. Our continued achievements are reflected in the success of our alumni and the pride which they have in their College. The enthusiasm of our present generation of undergraduates gives us reason to hope and the courage to work with them toward their goals.

We count on you, therefore, for three things:

1. We need your help in making the College better known to this generation of students. Your awareness of and enthusiasm about our academic program can provide impetus and strength to our vital work of recruitment.

2. We need your continued financial assistance. The sustained high contribution rate from our alumni in the Annual Fund is indispensable. We hope to achieve similar success with our appeals to business, parents, friends and other concerned persons. A college of our size and character needs both the testimony and financial assistance which such support provides.

3. We need from each of you your prayers that God may continue to bless this college community with vision, courage, and stamina to meet the constantly changing challenges of higher education.

We count on you. You are the living proof that the ideals and goals of St. Joseph's College are realizable and vital.

Sincerely,

Sister George Aquin O'Connor, C.S.J.

Sister George Aquin O'Connor
President

ST. JOSEPH'S COLLEGE

COMPARATIVE STATEMENT OF REVENUE AND EXPENDITURES FOR THE YEARS ENDED JUNE 30, 1973, 1974

	1974*	1973

	$114,763.57	$113,237.61

THE ST. JOSEPH'S COLLEGE ASSOCIATES

The S.J.C. Associates was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1,000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

MR. JOACHIM BARBIERI

SAINT JOSEPH'S COLLEGE ALUMNI FUND

Dear Alumni,

Thank you for your generosity and help in this past year's Development Fund Drive!

It is because of your financial support, we were able to raise $74,714.98 for St. Joseph's in the 1973-74 drive.

Your cooperation made my job a pleasure.

Sincerely,

Betty Anne McDonough
Chairman, Alumni Fund '74

245 Clinton Avenue • Brooklyn, New York 11205 • (212) 622-6203

WHY SHOULD YOU REMEMBER SAINT JOSEPH'S COLLEGE IN YOUR WILL?

Because you will help Saint Joseph's to continue to offer quality education in the metropolitan area. Your gift will advance the educational diversity that only a dual system of private and public higher education can provide. Your bequest could help to. . .

provide scholarship aid to able undergraduates of restricted means

increase faculty salaries

extend library services

equip a science laboratory

finance a faculty research program

Our legal name is:

This report covers the fiscal year, beginning July, 1974 to June 30, 1975. The Honor Roll of Donors lists all contributions from all sources received during that period. We hope there are no errors or omissions, but if there are, please let us know.

REPORT OF THE PRESIDENT TO THE TRUSTEES, ALUMNI AND FRIENDS OF THE COLLEGE FOR THE YEAR 1974-1975

Reorder educational priorities and Retrench in the face of increasingly more limited resources, without destroying or diluting the quality of education — such was the challenge given a short time ago by the Carnegie Commission to colleges and universities of this country. New York State responded immediately by developing a planning mechanism known as the Regents Master Plan for higher education. Its mission may be summarized as follows: "Whereas in the '60's we sought to keep up with the demand for growth, in the '70's we seek to control and contain that growth in the face of stabilized enrollments and future contractions."

Is it possible for a small liberal arts college in the tradition of St. Joseph's to conform to a public mandate and still preserve its fundamental values and mission? We believe that it is and that we can do so with intergrity.

Let me review the past year at the College under four major goals of the New York State-wide Master Plan and demonstrate how each relates to the objectives of the College as stated in our Catalogue.

GOAL I. EQUALIZED EDUCATIONAL OPPORTUNITY PROVIDED THROUGH A PLURALISTIC SYSTEM OF PUBLIC AND INDEPENDENT COLLEGES.

This goal is clearly in response to the charge of elitism frequently invoked against private institutions by the sponsors of the public sector. Throughout its history, St. Joseph's College has observed a policy of non-discrimination both in the matter of student admissions and in the hiring of faculty and staff. Both public and private monies have been administered with conscientious regard for the prescriptions of the fund sources. Given the labored and at times confusing guidelines handed down by federal and state agencies, providing satisfactory conditions of non-discrimination continue to be demanding and time consuming administrative tasks.

The College administers the federally funded Basic Educational Opportunity Grants, which provide students directly with allotments not only for tuition but also for cost of books, transportation, etc. This program, however, is restricted to recipients qualifying by a parent income estimate (a ceiling of $8,000 net taxable balance). Forty undergraduates received such BEOG awards totaling $23,000 during '74-'75, the average award being $600. If Congressional approval is given, the BEOG level will be raised next year.

The New York State Tuition Assistance Program initiated this year is designed to reach a broader spectrum of families (up to $20,000 gross annual income). It is New York State's specific effort to provide a pluralistic system of private and public education. The average Freshman TAP award in '74-'75 was $900-$950 with a maximum of $1,500 + $250 for a Regents Scholarship. Given the 1974-'75 SJC tuition charge of $1,625, students choosing this College and qualified by need were substantially aided by these State funds.

About 40% of the student body also received direct aid from College funds. In the '74-'75 fiscal year this amounted to $61,000. With approximatley 75% of all full time students receiving assistance through College and public resources, the financial barriers to attendance at St. Joseph's have been considerably reduced.

A new Médaille scholarship program was established by the Sisters of St. Joseph who at this time are members of the College faculty and administration. The Sisters are setting aside $15,000 of their contribution to the College annually over the next four years. The Médaille scholarship, named in honor of the founder of the Congregation, reaches out to students who may not have attained either a competitive scholarship or an award based on need, but who would find our College intellectually stimulating. This year's freshman class boasts 15 Médaille scholars who represent 15 different public and private high schools.

We have made our special climate available to many — through the administration of both public and private resources — and these have contributed concretely to the development of the pluralistic ideal. St. Joseph's College continued to do this, however, in its own ambience as expressed in the first of the College's goals: *"to affirm the dignity, freedom and ultimate value of the human person."*

GOAL II. EXCELLENCE IN DEVELOPMENT OF ACADEMIC PROGRAMS.

Confronted as the College is with competing demands for dwindling dollars, the faculty and administration nevertheless continue to support twelve major areas in Brooklyn and three in Brentwood precisely because we believe that these departments are fostering quality education. In addition, to meet current needs we have introduced Business Management and Special Education sequences in the B.A. programs, and B.S. degree programs in Recreation and General Studies.

Especially gratifying to both the College and the parents of participants has been the success of the freshman Save-A-Year program in Bishop Kearney High School. One third of these students merited citations on the Dean's Honor list.

Philosophically, the College stands committed to maintain the more traditional admissions standards. These, in our best judgment, are deemed necessary to ensure our students the attainment of a worthy baccalaureate degree. Experience has given us every reason to adhere to this commitment.

The College's record of superior academic achievement was once again evident in the June 1975 graduates. Twelve per cent of the senior class were awarded their bachelor degrees with general honors; a similar percentage received departmental honors. The impressive representation of graduate and professional school awards was further testimony to the level of achievement of our student body. In addition, undergraduate research grants have continued to stimulate the interest of our well motivated students.

No clearer testimony to the College's commitment to academic excellence is needed than the intellectual vitality evidenced by the members of our honor societies. This year we established a chapter of Phi Alpha Theta, the international history honor society and reactivated Delta Epsilon Sigma. The College honor society, Sigma Iota Chi, counts ten percent of the present undergraduate body in its current membership.

Four members of the full time faculty completed doctoral studies during the past year, thus bringing to 65% the proportion of full time faculty with doctorates in their academic disciplines.

These and many additional, though unrecorded, achievements have been stimulated and developed by a faculty dedicated to our objective; *"to provide an atmosphere for open dialogue, individual attention, innovative teaching and creative experimentation," and further, "to inspire in students a spirit of inquiry and the joy of learning as an ongoing part of their lives."*

GOAL III. RESPONSIVENESS TO SOCIETY'S NEEDS IN TERMS OF TRAINED MANPOWER.

The 1973 registration of the non-traditional modular educational program leading to a B.S. in General Studies was a benchmark in St. Joseph's curricular development. Designed to provide continuing professional education for adults seeking to improve their competencies and upgrade themselves toward professional careers, the program thus far has concentrated on personnel development in two areas of professional manpower needs: the health services, and leisure and recreational management. Response to date

indicates that the program, in its flexibility and format, is uniquely responsive to current manpower needs.

Even as we are developing these new and less traditional features of the College program, we continue to strengthen our preprofessional programs in teaching, nursing, medicine and law. Be they the new or the more familiar programs, the guiding principles and goals are those which have characterized the College: *"To prepare students for their life work by providing the necessary professional and preprofessional training."*

Beyond these specific responses, however, we are convinced that our greatest contribution to society's needs at the present time is the liberal education of students who will recognize their responsibility to the communities in which they live.

GOAL IV. RESPONSIVENESS OF INSTITUTIONS TO THE PARTICULAR COMMUNITIES WHERE THEY ARE LOCATED.

ST. Joseph's College, as an urban commuter college, has been especially conscious of its relationship to the particular community it serves and from which it has traditionally drawn its support. The Upper Division College at the Coordinate Campus in Brentwood, Long Island, was specifically designed to articulate with the well established community colleges of Nassau and Suffolk Counties, and its programs clearly complement them. As detailed above, the General Studies program looks to the needs of people both in the metropolitan area and in the suburbs, and establishes off-campus classrooms to accomodate its special populations.

A substantial number of the students in both Brooklyn and Brentwood continue to choose programs which will prepare them for teaching. Many are interested in special areas — the mentally retarded, learning disabilities and related populations. As in the past, an impressive number of these students devote precious hours in volunteer service. Schools,hospitals and social agencies provide opportunities for their competencies to be shared with those in need of tutoring and counseling. We are not surprised to hear that these volunteers share more than their professional skills — they are compassionate, sensitive and responsible young men and women. Frequently in the course of such contacts, the undergraduates have worked with graduates of the College. Our alumni in turn have provided no small measure of inspiration to a new generation of students, and a deep sense of pride and gratitude in those of us who have shared in the development of these values.

Be they generalists or specialists, the students who come within our curricular orbit should, we believe, be able to perceive in our programs and in our faculty an integration of St. Joseph's College goals and ideals:

> *"to provide for a unity of purpose and goals amid a plurality of methods and practices, to offer an increasing variety of educational alternatives to a diversified study body and to insure the survival of the College as a living institution responding to the challenge of higher education in the present historical moment."*

LEADERSHIP — ROLE OF THE BOARD OF TRUSTEES

In keeping with our mission, we recognize that a college is more than the sum of its parts. It is a moral person and as such its achievements as well as its shortcomings must be reassessed from time to time against its stated mission and purpose. This responsibility rests chiefly upon the shoulders of the Board of Trustees of the College. As the Board's chief liaison to the faculty, students and alumni, I can attest to the Board's attentiveness to its multiple responsibilities and its deep sense of purpose — roles which all its members serve with generosity and enviable expertise.

This year Edgar Debany completed his three-year term as Chairman. One of the marks of his Chairmanship has been the consistent effort to relate the Board to the broad interests of the College without compromising its high purpose and vantage point by involving it in partisan matters. Mr. Debany's skillful leadership and generous sharing with all of the College community have created a model worthy of emulation. All of us pledge support and loyalty to the new officers of the Board, most particularly to Mr. John A. Brunetti, Chairman. We extend our sincere gratitude to the retiring members of the

Board, and a warm welcome to the newly elected trustees: Mr. Robert C. Isban, Controller of Manufacturers Hanover Trust Company; Dr. Frank J. Macchiarola, Assistant Vice President of C.U.N.Y.; Sister John Crucis Faulds, Principal of Bishop Kearney High School; and Sister Virginia Crowley, Principal of Sacred Heart Academy. Two long time friends of the College and former trustees have been elected to serve a new term, Sister Joan de Lourdes Leonard and Mr. Joseph Belvedere.

RESOURCES – CRUCIAL TO THE TASK

We are happy to report that while accomplishing our objectives during the past year we have also been able to maintain a balanced budget. The Comparative Statement of Revenue and Expenditures which we have incorporated here has been reproduced from the '74-'75 annual audit report and uses both terms and the revised format prescribed by the American Institute of Certified Public Accountants. Inflation and salary improvements account for most of the increases in expenditures.

A study of the principal sources of the College revenues provides insight and a greater understanding of the importance of financial contributions other than tuition and fees. In the past year the breaddown of distribution of income is as follows:

Tuition and fees	58%
Donations of religious	18%
Government grants	10%
Alumni Fund	4%
Development Fund	2%
All others (e.g. cafeteria, rental-C.U.N.Y.)	8%

With expenditures virtually identical with all income we must find almost $600,000 beyond tuition. The alumni and development funds are clearly crucial to this task and have made possible our continued modest tuition charges. The donated services of the priests and religious are clearly indispensable for the survival of the College. The cash value of this gift,however, has been declining annually at a rate of about 4% due to increased payments for medical and retirement benefits. Beyond question, balancing the College's budget in a context of academic quality and economic inflation requires tremendous dedication, trust and continued generosity on the part of each and every person in our College community.

Our goals and objectives are more than eloquent prose. They are statements of values and ideals cherished by the persons who are this College's past, present and future. For their continued realization we need each one of you.

Sincerely,

Sister George Aquin O'Connor, C.S.J.

Sister George Aquin O'Connor
President

ST. JOSEPH'S COLLEGE, NEW YORK
COMPARATIVE STATEMENT OF REVENUE AND EXPENDITURES FOR THE YEARS ENDED JUNE 30, 1975, 1974

N.B. Certain items above are classified as endowment and similar funds income on the accompanying financial statement.

Mr. Edgar Debany, Chairman of the Board of Trustees, and Sister George Aquin show results of Phonathon '75.

THE ST. JOSEPH'S COLLEGE ASSOCIATES

The S.J.C. Associates was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1,000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

SAINT JOSEPH'S COLLEGE

ALUMNI ASSOCIATION • BROOKLYN, NEW YORK 11205

Dear Alumni,

Your generous support during the 1974-1975 Fund Drive, totalling $77,409.26 in contributions is a clear indication of the vitality and spirit of a dedicated Alumni Association.

This response together with the efforts of businesses, foundations and other sources of voluntary support, has enabled us to plan for the future growth and development of our College.

All at SJC are grateful - especially the many worthy students who are the primary beneficiaries of your interest.

Cordially,

Rosalie J. Tutino

This report covers the fiscal year, beginning July 1975 to June 30, 1976. The Honor Roll of Donors lists all contributions from all sources received during that period. We hope there are no errors or omissions, but if there are, please let us know.

ST. JOSEPH'S COLLEGE
245 CLINTON AVENUE
BROOKLYN, N. Y. 11205

212 - 622-4697

OFFICE OF THE PRESIDENT

Dear Alumni and Friends of St. Joseph's College,

In October of this year, we will celebrate the College's 60th Anniversary...an historic event not easily achieved. It represents numerous individual and collective efforts on the part of many courageous founders, far-sighted administrators, dedicated faculty, diligent students, and generous alumni and friends of SJC.

Without any one of these vital life-giving supports, our College Community would not, and could not, look forward to its tremendously exciting "birthday gala."

It is, therefore, in a spirit of gratitude and joy that we forward to you the following list of donors to the College's Alumni and Development Funds for 1975-76. The sincere interest of all who have contributed to St. Joseph's growth throughout the years has been a source of inspiration to all who join us in our quest for educational excellence and continuing service to our students and the communities they will enrich.

Sincerely,

Sister George Aquin O'Connor
President

SOURCES OF VOLUNTARY SUPPORT

	1975-1976	1974-1975
Alumni (Individual Contributions and Chapter Gifts)	$64,300.58	$71,669.99

	$103,204.43	$111,167.39

THE ST. JOSEPH'S COLLEGE ASSOCIATES

The S.J.C. Associates was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1,000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

OFFICE OF THE PRESIDENT

Archives
St. Joseph's College
Patchogue, N.Y. 11772

Dear Alumni and Friends of St. Joseph's College,

We are happy and proud to send you a copy of the Annual Register of Donors for the 1976-1977 Alumni and Development Funds. It reflects the spirit and generosity of our many supporters who share with us the joy of growth and achievement.

As you will note in my upcoming "President's Report", this past academic year was filled with optimism and plans for expansion at both our Brooklyn and Suffolk Campuses. Among those plans are the commitment to upgrade athletic facilities for men and women at the Brooklyn Campus and the expansion of the Upper Division College in Brentwood to a full four-year program beginning September '78.

However, in order for these and so many other dreams to become reality, all of us must renew with even more vigor our dedication to the principles which have made St. Joseph's a unique educational experience for over sixty years.

On behalf of the entire College Community, I invite you to assist us in this continuing "adventure". The sacrifices may be many, but the rewards are great.

Sincerely,

Sister George Aquin O'Connor
President

SOURCES OF VOLUNTARY SUPPORT

	1976-1977	1975-1976
Alumni (Individual Contributions and Chapter Gifts)	$79,591.93	$64,300.58
Matching Gifts (Alumni)	8,353.00	5,160.00
Foundations (Given on behalf of Alumni)	100.00	150.00
Interest on Alumni Fund Account	587.28	818.40
Dividends and Interest (Cl. of '67 Portfolio)	257.44	244.29
Dividends and Interest (Cl. of '72 Portfolio)	0	109.52*
	$88,889.65	$70,782.79
Undergraduate Parents	1,955.00	2,865.00
Dillion Parents	187.00	100.00
Friends	11,990.00	9,025.00
Matching Gifts (Non-Alumni)	550.00	625.00
	$14,682.00	$12,615.00
Business	$16,145.00	$16,660.00
Foundations	9,000.00	1,000.00
Organizations	3,350.00	1,700.00
Estate Planning	7,656.58	–
Interest on Development Fund Account	384.41	446.64
	$140,107.64	$103,204.43

*Principal on Class of '72 Portfolio in the amount of $1,115.00 was turned over to the Library for the purchase of books.

THE ST. JOSEPH'S COLLEGE ASSOCIATES

The S.J.C. Associates was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1,000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

SAINT JOSEPH'S COLLEGE
development office

Thank you for making the 1976-1977 Alumni and Development Funds a tremendous success. Your participation in the Drive helped achieve a 35% increase in voluntary support contributions over the previous year's total.

However, in this inflationary economy, we must continue to raise our sights in order to "remain even".

Help us achieve our Fund goals this coming year...so that our students may achieve theirs in the years to come.

Rosalie J. Tutino

Rosalie J. Tutino '59
Vice President for Development
and College Relations

ST. JOSEPH'S COLLEGE GRATEFULLY ACKNOWLEDGES THE GIFTS
OF THE FOLLOWING ALUMNI TO ALUMNI FUND '77
(July 1, 1976 through June 30, 1977)

OFFICE OF THE PRESIDENT

Archives
St. Joseph's College
Patchogue, N.Y. 11772

Dear Alumni and Friends of St. Joseph's College,

We begin this new academic year with a spirit of hope and enthusiasm, for our many friends and supporters have given visible evidence of their desire to be active partners in the continuing adventure of St. Joseph's College.

The 1977-1978 Alumni Fund and Development Fund drives reflected an overall increase of 5½% over the previous year. Most encouraging, however, has been the dramatic increase in contributions within certain categories of donors. For example, Trustees - up 318%; Friends - up 70%; Parents - up 38%; Businesses - up 35%; Faculty - up 20%; and Alumni - up 10% - this despite a drop in Alumni participation from 35% to 33%.

Our goal for the 1978-1979 Fund is 100% participation by all our constituencies. You are the key to our future. All our hopes and plans for growth and expansion of programs rests on your willingness to help us now. We will keep you informed of our progress through newsletters, press releases and other special communications.

We want to move forward in assisting our students meet a changing and a challenging world. With your support St. Joseph's College will continue in its tradition of providing the best possible educational experience for the men and women of our community.

Sincerely,

Sister George Aquin O'Connor, CSJ.
Sister George Aquin O'Connor
President

SOURCES OF VOLUNTARY SUPPORT

	$29,878.74	$36,535.99
	$146,460.00	$140,107.64

THE ST. JOSEPH'S COLLEGE ASSOCIATES

The S.J.C. Associates was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1,000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

St. Joseph's College

ROSALIE J. TUTINO

VICE PRESIDENT FOR DEVELOPMENT AND COLLEGE RELATIONS

All of us at SJC are most grateful for the trememdous support we have received from Alumni and Friends of St. Joseph's College during the past year.

Of course, the financial success of our Fund Drive was an important achievement; however, we wish to acknowledge in a special way the vital contribution of those whose personal sacrifices of time, energy and talent so often helped make the difference between the success or failure of an event or function.

Again - thank you on behalf of the many students who have benefitted and will continue to benefit from your generosity.

Cordially,

Rosalie J. Tutino

OFFICE OF THE PRESIDENT

Archives
St. Joseph's College
Patchogue, N.Y. 11772

Dear Alumni and Friends of St. Joseph's College,

This year's Annual Report of the 1978-1979 Alumni and Development Funds is especially significant as we look forward to the challenges of the 1980's.

Increased giving in a majority of donor categories is indicative of the continued support St. Joseph's enjoys from its many constituencies. We are most grateful for this vote of confidence in what we are and what we hope to be.

Therefore, we enter this academic year with a sense of optimism and joyful expectation. Our programs in Brooklyn are expanding- our new Suffolk Campus in Patchogue has been well received by the people on Long Island and is expected to grow in line with, or ahead of, current projections. One "unknown factor" in this positive stance is the financial support we will receive in the 1979-1980 drives.

Although overall voluntary support increased last year by approximately 5%, it was far less than the double digit inflation experienced by the College in its cost of operation. And, next year seems to be set in the same fiscal mold.

In order for our plans to become reality, we must set significantly higher goals for our fund raising efforts this year. Please help us continue to meet the needs of the hundreds of students who look to us for a unique collegial experience.

Sincerely

S. George Aquin

Sister George Aquin O'Connor
President

SOURCES OF VOLUNTARY SUPPORT

	1978-1979	1977-1978

	$51,244.65	$37,588.74
	$161,823.86	$154,170.00

THE ST. JOSEPH'S COLLEGE ASSOCIATES

The S.J.C. Associates was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1,000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

St. Joseph's College

Rosalie J. Tutino

VICE PRESIDENT FOR DEVELOPMENT AND COLLEGE RELATIONS

Once again we are happy to present you with an Annual Register of Donors which reflects increased support to St. Joseph's College.

The success of the 1978-1979 Fund Drive is your success - for without your continued interest and generosity, the many needs of the College and its students would not be met. Therefore, on behalf of the entire College Community, thank you for all you have done and will continue to do to keep the College a strong and viable partner in the world of higher education.

We urge you to keep abreast of the many "happenings" at SJC this coming academic year through our quarterly Newsletter, "245", and your local press. Share with us the pride and sense of satisfaction which will come with each new success made possible by the combined efforts of all.

Cordially,

Rosalie J. Tutino

245 CLINTON AVENUE, BROOKLYN, NEW YORK 11205 • (212) 622-6203 622-4696

This report covers the fiscal year, beginning July 1979 to July 30, 1980. The Honor Roll of Donors lists all contributions from all sources received during that period. We hope there are no errors or omissions, but if there are, please let us know.

ST. JOSEPH'S COLLEGE
245 CLINTON AVENUE
BROOKLYN, N. Y. 11205

212 - 622-4696

OFFICE OF THE PRESIDENT

Dear Alumni and Friends of St. Joseph's College,

This past year has been marked by unprecedented growth and expansion in almost every phase of the College's life. No doubt you have kept abreast of these developments through our publications and through your local press.

Often, while discussing the vitality of the College operation, I hear comments such as:

"Why are you expanding when most other colleges are retrenching?"
"With constantly rising costs, how do you manage to keep your tuition so low and still balance your budget?"

When one stops to think about it, it is rather amazing that St. Joseph's College can continue to provide an outstanding collegiate experience at two beautiful campus sites during these days of rapid change and high cost.

The secret is in 1980 as it has been since 1916. A growing number of generous alumni and friends like you who believe in the goals and commitments of St. Joseph's and who are willing to support it with their gifts.

While the future of our College is bright with promise, much depends on your participation in the 1980-1981 Fund Drive. Our goal is $200,000. Our cause is a worthy one. All of us will be grateful and encouraged by your response.

Sincerely,

Sister George

Sister George Aquin O'Connor, C.S.J.
President

SOURCES OF VOLUNTARY SUPPORT

THE ST. JOSEPH'S COLLEGE ASSOCIATES

The S.J.C. Associates was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1,000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

St. Joseph's College

Rosalie J. Tutino

VICE PRESIDENT FOR DEVELOPMENT AND COLLEGE RELATIONS

Dear Alumni and Friends:

St. Joseph's College is again saying "thanks for a job well done" to all of you who have helped complete the latest in its sixty-four years of academic achievement.

The Annual Register of Donors is intended as a symbol of appreciation and recognition of those of you who share a concern for private higher education, and especially for St. Joseph's. You will note that this support effort brings together alumni and friends - both individual and corporate - as well as trustees, administrators, faculty, staff, parents, and students.

We ask that you help keep this successful team together by continuing your active participation in the 1980-1981 Fund Drive.

Sincerely,

Rosalie J. Tutino

245 CLINTON AVENUE, BROOKLYN, NEW YORK 11205 • (212) 622-6203 622-4696

ST. JOSEPH'S COLLEGE GRATEFULLY ACKNOWLEDGES THE GIFTS OF THE FOLLOWING ALUMNI TO ALUMNI FUND '80
(July 1, 1979 through June 30, 1980)

This report covers the fiscal year, beginning July 1980 to June 30, 1981. The Honor Roll of Donors lists all contributions from all sources received during that period. We hope there are no errors or omissions, but if there are, please let us know.

ST. JOSEPH'S COLLEGE, NEW YORK

THE PRESIDENT'S OFFICE

Dear Alumni and Friends of St. Joseph's College,

We are happy to send you our Annual Register of Donors which reflects the tremendous support offered by Trustees, alumni, administrators, faculty, parents, students and friends of the College.

May I express special thanks to the Alumni whose personal contributions and matching gifts have exceeded their goal of $100,000 for 1980-1981. This consistent and encouraging effort on your part assures that St. Joseph's will not merely endure, but will grow, flourish and continue to provide the best educational environment possible.

It may be less than five or more than fifty years since you and St. Joseph's chose each other, but your special contributions to each other's development are unique and lasting.

I know both of you will continue to delight in this partnership which has enhanced the lives of so many.

Sincerely,

Sister George

Sister George Aquin O'Connor, C.S.J.
President

	$51,001.16	$35,548.86
	170,889.78	$152,558.96

THE ST. JOSEPH'S COLLEGE ASSOCIATES

The S.J.C. Associates was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

St. Joseph's College

Rosalie J. Tutino

VICE PRESIDENT FOR DEVELOPMENT AND COLLEGE RELATIONS

Dear Alumni and Friends:

On behalf of all who worked so diligently on the Alumni and Development Fund drives, thank you for your active support of St. Joseph's College. Your generosity has once again allowed us to surpass previous "highs."

Now we look to the new academic year and the new Drive which will require even more effort and more dedication. Many of you have already confirmed support for the 1981-1982 Fund with either a pledge or a gift. To you, an added heartfelt thanks. For the many more of you who have yet to make a commitment, please consider the extent of your participation this year. We hope you will consider becoming a Sigma Circle member, ($100-$499), a Sustaining Sigma member ($500-$999) or an SJC Associate ($1000 and over). Of course, matching gifts are included in determining these donor categories. No matter what the size of your gift, it will be put to good and immediate use.

Again - thank you for all you have done and continue to do to make SJC a unique collegiate experience.

Sincerely,

Rosalie J. Tutino

This report covers the fiscal year, beginning July 1981 to June 30, 1982. The Honor Roll of Donors lists all contributions from all sources received during that period. We hope there are no errors or omissions, but if there are, please let us know.

ST. JOSEPH'S COLLEGE, NEW YORK

THE PRESIDENT'S OFFICE

Dear Alumni and Friends of St. Joseph's College,

Once again we are pleased to send you the Annual Register of Donors. Although it is, in a sense, a look back at the past year's record and achievements, it is also a rich source of encouragement for all who look ahead to the College's future.

While studying the data from which this report was formulated, I was struck by several facts. Among the most significant were the increased number of Alumni gifts...the upsurge in SJC Associate and Sigma Circle memberships...greater participation in matching gift programs offered by employers of Alumni and their families...and the growing recognition from the business and civic communities served by both the Brooklyn and Patchogue campuses. All are strong positive indications that St. Joseph's continues to represent YOU well and, therefore, continues to enjoy your loyalty and support.

For you - each and every one of you - Trustees, Administrators, Faculty, Students, Alumni, Friends and Benefactors - are St. Joseph's College. You are an integral part of its rich past, its exciting present, and much to our joy, its challenging future. We invite you to join us again this year in our partnership of dedication to excellence and service to our community.

Sincerely,

Sister George Aquin O'Connor. C.S.J.
President

245 Clinton Avenue, Brooklyn, NY 11205

155 Roe Boulevard, Patchogue, NY 11772

	$76,916.48	$51,001.16
	$222,885.97	$170,889.78

THE ST. JOSEPH'S COLLEGE ASSOCIATES

The S.J.C. Associates was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

St. Joseph's College

Rosalie J. Tutino

VICE PRESIDENT FOR DEVELOPMENT AND COLLEGE RELATIONS

Dear Alumni and Friends:

All at St. Joseph's join me in thanking you for your generous support of the 1981-1982 Annual Fund Drive. Your participation this past year helped realize a 30.4% increase over the previous year's effort - an amazing response during a period of severe national economic stress. These gains will help the College keep pace with rising costs associated with virtually every phase of its operation.

However, as the College continues to grow in its service to the men and women of the New York area, so does its fiscal responsibility. Especially taxing is the attempt to meet the financial needs of worthy students who have suffered drastic cutbacks in grants and loans resulting from recent federal legislation. With your help, these students will be able to complete their education at St. Joseph's.

So - whether you are a graduate of the Brooklyn Campus or the Suffolk Campus, from the Division of Arts and Sciences or the Division of General Studies, a parent of a graduate, a corporate donor, or a friend and neighbor living on Clinton Avenue or Roe Boulevard, we ask you to be a part of this year's drive.

Thank you.

Cordially,

Rosalie J. Tutino

245 CLINTON AVENUE, BROOKLYN, NEW YORK 11205 • (212) 622-6203, 622-4696

155 ROE BOULEVARD, PATCHOGUE, NEW YORK 11772 • (516) 654-5736

This report covers the fiscal year, beginning July 1982 to June 30, 1983. The Honor Roll of Donors lists all contributions from all sources received during that period. We hope there are no errors or omissions, but if there are, please let us know.

ST. JOSEPH'S COLLEGE, NEW YORK

THE PRESIDENT'S OFFICE

Dear Alumni and Friends of St. Joseph's College,

The 1982-1983 academic year has been an especially rich and gratifying experience for the entire College Community. Research, renewal, growth and innovative planning have been at every level of activity. Trustees, administrators, faculty and students have joined together to meet successfully the challenges of the 80's.

We know you will be happy to read and reflect upon the data contained in this Annual Register of Donors. This publication, together with the President's Report which will be sent to you within the next month, will give you a clear picture of the new and exciting directions in which the College is headed.

The fulfillment of these plans depends upon your continued support. We urge you, therefore, to participate in the 1983-1984 Fund Drive and, if possible, to increase your contribution this year so that the College may remain abreast of the steadily rising cost of maintaining a quality educational environment for its students.

Thank you for all you have done to bring St. Joseph's to this moment in its history. Thank you for all you will do to help write its history for many years to come.

Sincerely,

Sister George

Sister George Aquin O'Connor, C.S.J.
President

245 Clinton Avenue, Brooklyn, NY 11205

155 Roe Boulevard, Patchogue, NY 11772

	$267,526.98	$222,885.97

ST. JOSEPH'S COLLEGE
PRESIDENT'S FOUNDERS CIRCLE

The President's Founders Circle was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

Rosalie J. Tutino

VICE PRESIDENT FOR DEVELOPMENT AND COLLEGE RELATIONS

Dear Alumni and Friends:

On behalf of all at St. Joseph's College, thank you for your generous participation in the 1982-1983 Annual Fund Drive. We are happy to report that this year's effort has produced an increase of 20% over last year's total - with a 14% increase in Sigma Circle membership and an unprecedented 37.5% increase in major contributions of $1,000 or more.

These figures are encouraging and indicate that your level of support has kept pace with the College's growth and development. In addition, it reflects the ever expanding numbers of corporate and foundation donors who have become sensitive to our needs and responsive to our request for assistance. A 16.3% increase in their contributions this past year was especially important to our child study, math, and science departments as they planned to expand their computer capabilities and program offerings.

However, the beat goes on...and this year's Fund Drive becomes even more vital to the strength and vigor of St. Joseph's College. Please join us again in 1983-1984. You are an important part of this team which has accomplished so much in the past and whose hopes and dreams extend far into the future.

Cordially,

Rosalie J. Tutino

Board of Trustees / 23

This report covers the fiscal year, beginning July 1983 to June 30, 1984. The Honor Roll of Donors lists all contributions from all sources received during that period. We hope there are no errors or omissions, but if there are, please let us know.

ST. JOSEPH'S COLLEGE, NEW YORK

THE PRESIDENT'S OFFICE

Dear Alumni and Friends of St. Joseph's College:

It is with a sense of gratitude and pride that I present the 1983-1984 Annual Register of Donors.

On behalf of all at St. Joseph's, thank you for your generous support which has once again resulted in a "record breaking" fund raising year for the College. We are especially grateful to those who made an extra effort to increase their gifts, thereby becoming either Sigma Circle members or members of the President's Founders Circle. As always, the direct beneficiaries of your contributions are the almost 2,500 students at our campuses in Brooklyn and Patchogue who continue to enjoy the best educational experience anywhere in the New York Area.

This past year has also witnessed the inauguration of a new "tradition" at St. Joseph's...we held our First Annual Dinner Dance for the benefit of the College's scholarship program. The success of this event enabled us to offer assistance to a larger number of highly qualified, deserving students entering the present freshman class - an outcome we hope will be repeated.

However, our need to expand our horizons and develop our educational resources continues. We once again look to you to help us face the challenges of the next academic year and beyond.

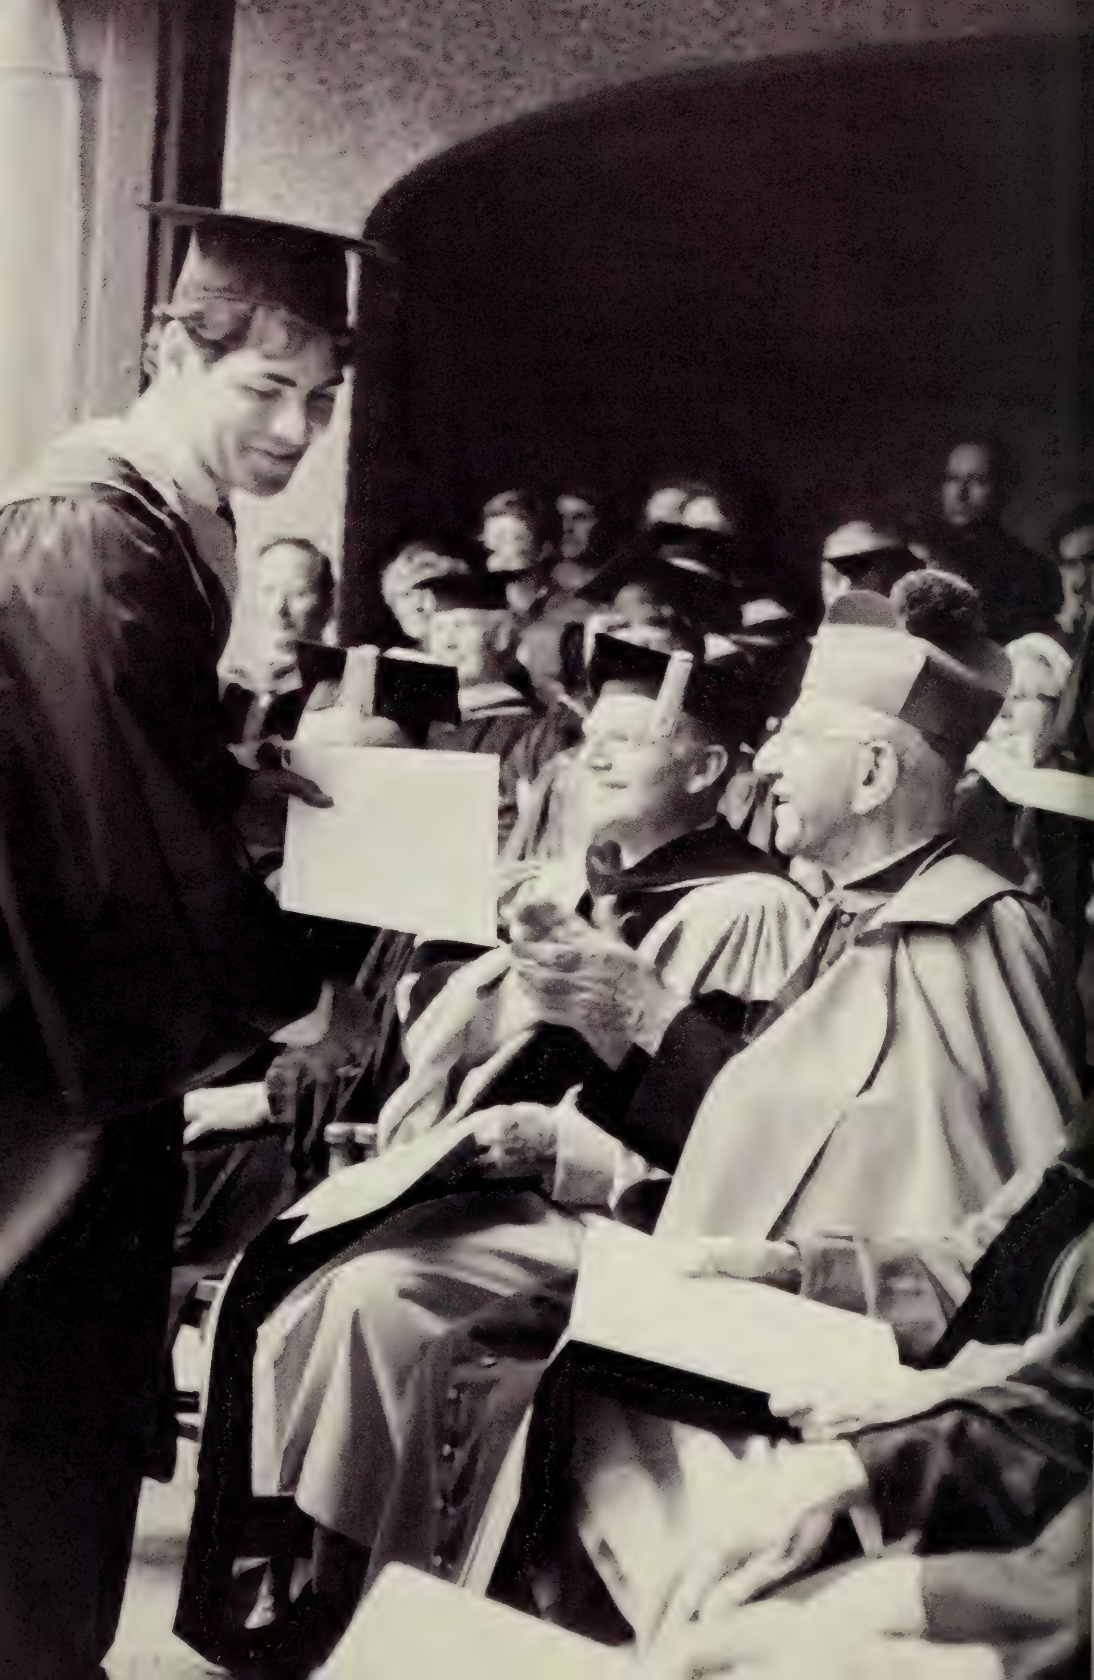

Please know that we deeply appreciate all that you have done and continue to do for St. Joseph's. Our prayers are with you always.

Sincerely,

Sister George Aquin O'Connor, CSJ
President

245 CLINTON AVENUE, BROOKLYN, NY 11205

155 ROE BOULEVARD, PATCHOGUE, NY 11772

ST. JOSEPH'S COLLEGE

PRESIDENT'S FOUNDERS CIRCLE

The President's Founders Circle was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

Rosalie J. Tutino

VICE PRESIDENT FOR DEVELOPMENT AND COLLEGE RELATIONS

Dear Alumni and Friends:

Thank you for your generous support of the 1983-1984 Annual Fund Drive. This year's effort resulted in a resounding 18% increase over the previous year's total...an amazing indication of your continued loyalty to the College and commitment to its educational mission. Overall, the number of donors has increased by 11% - with Sigma Circle members up 10% and donors of $1,000 or more up 42%.

I would like to give special thanks to our Alumni whose personal gifts increased by over 14%. An added dimension to their response has been the effort to secure matching gifts from their employers and those of family members. Matching gifts from Alumni sources contributed almost $24,000 to the Fund...valuable income which would have been lost, but for their diligence.

All of us at St. Joe's are happy to share this encouraging report with you. However, we cannot rest on our laurels. As we look forward to the 1984-1985 Drive, we once again ask that you participate as wholeheartedly now as you have in the past.

Again - many thanks. I hope to meet you soon at a College function so that I may express my appreciation personally.

Cordially,

Rosalie J. Tutino '57

Brooklyn Campus

A community of scholars . . . humanistic . . . people-centered . . . dedicated to the tradition of the liberal arts in a quality educational environment.

Since 1916. . .

Suffolk Campus

Noted Alumni serving creatively and competently in education... the arts... business... law... public service... articulating the values of St. Joseph's College.

A glance at its past forecasts its future.

This report covers the fiscal year, beginning July 1984 to June 30, 1985. The Honor Roll of Donors lists all contributions from all sources received during that period. We hope there are no errors or omissions, but if there are, please let us know.

ST. JOSEPH'S COLLEGE, NEW YORK

THE PRESIDENT'S OFFICE

Dear Alumni and Friends of St. Joseph's College:

I am happy to share with you our 1984-1985 Annual Register of Donors which, once again, reflects the tremendous enthusiasm and support you have afforded to St. Joseph's.

The results of your generosity are widespread throughout the College Community. Curriculum and faculty development, increased scholarship and financial aid programs, capital improvements and the establishment of the beautiful new Clare Rose Playhouse are all attributable to you. Each and every one of you has shared in this growing partnership known as St. Joseph's College.

Thank you for your encouragement and for your trust. We look forward to working with you throughout the coming year as we continue to meet the needs of the students and communities we serve.

Sincerely,

Sister George Aquin O'Connor, C.S.J.
President

245 Clinton Avenue, Brooklyn, NY 11205

155 Roe Boulevard, Patchogue, NY 11772

ST. JOSEPH'S COLLEGE
PRESIDENT'S FOUNDERS CIRCLE

The President's Founders Circle was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

St. Joseph's College

Rosalie J. Tutino

VICE PRESIDENT FOR DEVELOPMENT AND COLLEGE RELATIONS

Dear Alumni and Friends:

Congratulations!! You have made the 1984-1985 Fund Drive one of our most successful efforts ever.

This year, contributions jumped by an unprecedented 34.9%... lifting us to an all-time high in giving by alumni, "friends", matching gift donors, and dinner dance participants.

On behalf of all at St. Joseph's, thank you for your outstanding support. We appreciate your continued interest in the College and urge you to join us once again in the 1985-1986 Fund Drive. Your help is the lifeblood of SJC as it grows in commitment and service to our students.

Again - thank you!

Sincerely,

Rosalie J. Tutino

St. Joseph's College has come a long way since its founding in Brooklyn in 1916. Its development has been a strong and enriching experience. Within the past fifteen years alone it has created a Division of General Studies to foster the personal professional growth of adult, non-traditional students; it has opened its doors to male students, establishing it as a quality co-eductional college; and it has developed a Long Island Campus in Patchogue on the site of the former Seton Hall High School.

Throughout its history, St. Joseph's has been noted for creating a free atmosphere in which students and faculty together can investigate the major areas of human knowledge as the basis for a more effective participation in the contemporary world.

The success of this philosophy has been apparent as thousands of St. Joseph's College graduates have contributed significantly to the vibrancy of life in the New York Metropolitan area. . . and beyond. They have touched so many of our lives directly or indirectly by entering and enriching the professions of education, medicine, business, law, community services, industry, and the creative arts.

St. Joseph's College, encouraged by your manifest support and expressions of confidence, rededicates itself to the continued pursuit of academic excellence and service to the community.

ST. JOSEPH'S COLLEGE
SJC
NEW YORK
Office of the President

October 1986

Dear Alumni and Friends of St. Joseph's College:

This is a special year of celebration for all of us at St. Joseph's. It is our 70th Anniversary as a college in Brooklyn - and the 15th Anniversary of our presence in Suffolk.

The joy which marks this occasion is enhanced by the accomplishments of the past year. Our efforts to establish new academic programs and develop greater community awareness and involvement have been blessed with success. Our graduates and undergraduates continued to achieve outstanding scholastic recognition, and our growth to over 2400 students strong prompted planning for improved facilities both in Brooklyn and in Suffolk.

You were a vital part of these plans and programs. Your participation in last year's Fund Drive, as reflected in this 1985-86 Report, was an important source of support and encouragement. And - this year promises to be more exciting than last. Many of the activities begun a year ago will come to full flower this year...and next...if you help.

Therefore, I ask that you take part in the 1986-87 Annual Fund Drive. As we have noted in some of our recent publications, our educational missions stretches from the Brooklyn Bridge to the Montauk Lighthouse. With your continued support, our contribution to the lives of our students and the communities we all serve will remain as strong and as meaningful as these historic landmarks.

Sincerely,

Sister George Aquin O'Connor, C.S.J.
President

ST. JOSEPH'S COLLEGE
PRESIDENT'S FOUNDERS CIRCLE

The President's Founders Circle was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

Development
College Relations

October 1986

Dear Alumni and Friends:

We are happy to share the 1985-1986 Register of Donors with you and reflect briefly on last year's Fund Drive.

All of us at St. Joseph's are grateful for your participation. Special thanks to our Alumni whose level of support increased 7.3% and whose continued involvement in every aspect of the College's life remains the nucleus of our development at both campuses.

One area of concern is the decline of Alumni matching gifts - down 12% from the previous year. We hope to correct that slide this year by distributing a list of matching gift firms and institutions so that all our donors will be aware of this very important phase of our fund-raising effort.

May I take this opportunity to invite you to send me any suggestions you might have regarding this year's Drive. Such recommendations from "friends in the field" have been very helpful to us in the past. We welcome your interest and input.

Again - thank you.

Sincerely,

Rosalie J. Tutino '59
Vice President for
Development/College Relations

The
President's Office

November 1987

Dear Alumni and Friends:

On behalf of all at St. Joseph's College, thank you for the tremendous outpouring of support which has brought us into a period of unprecedented growth and development.

Through your generosity, we have been able to increase student aid, add relevant major areas of study to our curriculum, upgrade library facilities, and take a "giant step" toward a new building program at the Patchogue Campus and a significent renovation project centered around the cafeteria and student lounges in Brooklyn.

The health generated by your participation is reflected in our September 1987 enrollment figures which total almost 2500 students ... an overall increase of 9%. As partners, each of us, in our own way, plays a role in this exciting adventure which is St. Joseph's College.

We are grateful for your participation... yesterday... today... and tomorrow... as SJC is always striving... always "Reaching New Horizons".

Sincerely,

Sister George Aquin O'Connor, C.S.J.
President

ST. JOSEPH'S COLLEGE
PRESIDENT'S FOUNDERS CIRCLE

The President's Founders Circle was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

Development
College Relations

November 1987

Dear Alumni and Friends:

It is with great pleasure and a deep sense of gratitude that we share with you the 1986-1987 Donors Report. Your support last year resulted in our most successful Development Fund Drive to date - $552,324... up 25.2% over the 1985-1986 total.

Special thanks to our Alumni whose annual gifts rose a healthy 18% - with their matching gift totals jumping a dramatic 86.6% over last year. In addition, several graduates remembered the College in their estate planning resulting in $7,000 in bequests. And - local organizations, recognizing St. Joseph's contribution to the community, increased their gifts by 83.6%.

Businesses and corporations throughout the area responded most generously to appeals to participate in our Fourth Annual Dinner Dance which honored Herbert J. Brauer, Senior Vice President of Manufacturers Trust. Through his outstanding efforts and those of General Chairman Elwin S. Larson, Chairman and Chief Executive Officer of Brooklyn Union Gas, the dinner posted a record-breaking $240,157 in receipts.

While we are happy to reflect on the positive aspects of this report, we are now into the new fiscal year which holds its own set of choices and challenges. We look forward to your continued interest and support and welcome your counsel.

Sincerely,

Rosalie J. Tutino '59
Vice President

The
President's Office

October 1988

Dear Alumni and Friends:

The 1987-1988 academic year was filled with activity - much of it centered around the "New Horizons" Capital Campaign which will fund major undertakings at both the Brooklyn and Suffolk campuses.

Plans for the new library in Patchogue became reality with an offical groundbreaking ceremony in May. The Brooklyn campus saw the completion of renovation projects in the cafeteria and student lounges, with additional work begun in the "245" parlors. And - the Renaissance Fund, which will provide scholarship aid for worthy students, was unveiled.

You, as always, have been the most important ingredient in this mixture of ideas, hopes, plans, and hard work. Your support throughout the years is, and always has been, a driving force in the life of the College. As a recent popular song states, "You are the wind beneath our wings".

We hope you will continue to share our enthusiasm as St. Joseph's College grows and expands its service to our communities - from the Brooklyn Bridge to the Montauk Lighthouse. Share our New Horizons!

Sincerely,

Sister Gerorge Aquin O'Connor, C.S.J.
President

ST. JOSEPH'S COLLEGE
PRESIDENT'S FOUNDERS CIRCLE

The President's Founders Circle was established by the Board of Trustees because of the growing number of thoughtful men and women who have expressed a concern for the future of the College. Dedicated to the cause of excellence in education, its members contribute $1,000 or more to the growth and development of St. Joseph's College as an expression of this ideal.

Development
College Relations

October 1988

Dear Alumni and Friends:

This 1987-1988 Donors Report is a clear reflection of your continued generosity and unwavering commitment to the growth and development of St. Joseph's College. Last year, your contributions brought $625,618 to the College - an increase of 10% over the previous year's total.

It is with special pride that we acknowledge the steady rise in Alumni gifts - last year totalling $184,023, an increase of 12%. In addition, several bequests from alumni brought almost $42,000 to the College. Alumni and trustees also played a major role in securing foundation grants which jumped significantly to $36,200.

We are most grateful to our many friends in the business community who have participated wholeheartedly on our dinner dance, public relations, and golf tournament committees. Thanks, too, to those who have joined our trustees in planning the New Horizons Capital Campaign - a $5,000,000 five-year fund raising project for the benefit of both the Brooklyn and Suffolk Campuses.

We look forward to the new year with high hopes and deep gratitude to each and every one of you. Your loyalty and friendship have brought St. Joseph's College to a new high point in its long, rich history.

Thank you.

Sincerely,

Rosalie J. Tutino '54

NEW HORIZONS
THE CAMPAIGN FOR
ST. JOSEPH'S COLLEGE

A New Library *Suffolk Campus*

SINCE OPENING IN PATCHOGUE IN 1979, THE COLLEGE HAS EXPERIENCED PHENOMENAL GROWTH. THERE HAS BEEN A 331% INCREASE IN STUDENT POPULATION—CURRENTLY OVER 1,700 STUDENTS ARE SERVED AT THAT FACILITY. THIS ENROLLMENT "PROBLEM" HAS LED TO A SEVERE SPACE PROBLEM, WHICH *NEW HORIZONS* WILL HELP SOLVE IN TWO WAYS:

BY BUILDING A MODERN, NEW FREE-STANDING LIBRARY

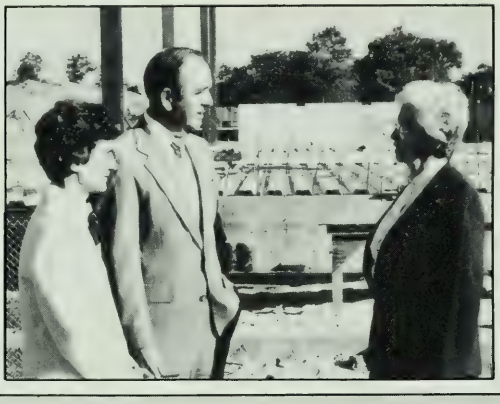

BY RENOVATING THE EXISTING BUILDING TO ACCOMMODATE ADDITIONAL CLASSROOMS, FACULTY OFFICES, AND STUDENT ACTIVITIES AREAS

A FREE-STANDING LIBRARY IS THE FIRST STAGE OF ST. JOSEPH'S LONG-RANGE PLAN TO CREATE AN OUTSTANDING COLLEGIATE ENVIRONMENT.

NEW HORIZONS
THE CAMPAIGN FOR
ST. JOSEPH'S COLLEGE

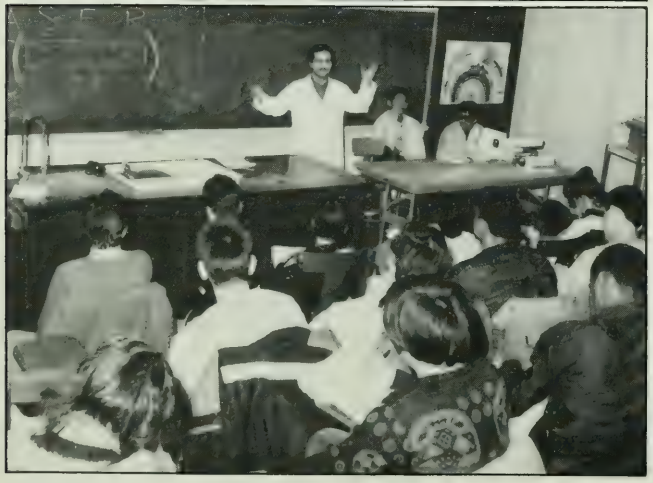

The Renaissance Fund

THE RENAISSANCE FUND WILL ENSURE THE COLLEGE'S ACADEMIC DEVELOPMENT BY PROVIDING SCHOLARSHIP OPPORTUNITIES WHICH WILL ENABLE QUALIFIED STUDENTS TO CHOOSE A ST. JOSEPH'S EDUCATION—WITH ALL THE RICHNESS OF VALUES AND TRADITION THAT THE COLLEGE REPRESENTS.
